Mining in Dawson.

FROM OUR SPECIAL CORRESPONDENT.

Dawson and Hall counties are now on quite a boom. Prospectors are as work in various places the result of which is very satisfactory.

J. D. Palmour is doing considerable work on his property. Z. V. Hewitt has men on three different properties with very satisfactory results in Dawson. He also controls the old Barker placer mine, where a scientific system is being prosecuted under his personal supervision with results that may well astonish those who are looking for such property. This mine has not been worked to any extent. It being excellent farming land. The owners for many years have refused all propositions. Mr. Hewitt, however, is the fortunate man to properly test this mine. At the present time he has ten test pits opened, showing a bed of gravel averaging about five feet in depth. His plan is to take one foot square from the top of the gravel to the slate from each pit and make a general average. And from reliable information we learn that it will make a very rich mine. We also learn that Mr. Hewitt has a novel system of operation which will be a new departure in placer mining, the details of which we hope soon to be able to make public. This much we can now say is that the power to operate the pumps is generated by the weight of the gravel removed from the vein rock or surface that now stands about eighty feet above the bottom lands. This property contains about 67 acres, and from the opinion of many of the oldest miners who are acquainted with the mine, it is the richest deposit on the Chestatee river and in their opinion will show at least 50 cents per foot on several points of this property. Mr. Hewitt is also operating a deposit mine on Charlotta creek in Dawson county. Here again he has adopted a new system. The gravel enters a sluice line which empties it into a cylinder about 12 feet long and 4 feet in diameter, which revolves, slits of 1/2 inch are left between the slats or strips forming the cylinder to allow the small gravel and gold to pass into the receiver which is arranged beneath the cylinder, thence out through the second set of sluice or riffle boxes. The machine is set with one end somewhat elevated so the revolutions changes the center of gravity and the gravel rolling or falling moves toward the dumping end of the machine. Several other new ideas are involved which we have not space to mention. A number of mill men who have examined it say it is undoubtedly the best system for handling soft belt ores where free gold is found in the slats binding that they have ever seen.

ATLANTA, GA., April 26.

MR. EDITOR:—

I have been thinking lately, I am now satisfied from observation and experience, as well as from medical testimony that whiskey and drink are not only needless but hurtful, and that the entire disuse of them would tend to promote the health, the virtue, the happiness, the christianity and morality of the community. I have expressed my convictions that should the people of the country and especially the heads of families discard the use of liquor they would not only promote their personal interest but the good of our country and the world in general. A. R. SULLINS.

The directory of Dahlonega gotten up by Theo. Hobgood, of Atlanta, is well arranged, nicely printed and gives a good idea of what is going on in our prosperous city, giving perfect satisfaction to all. These prospectus will be placed in conspicuous places for miles around so as to catch the eyes of those wishing to locate in a growing place known as the Golden City, which will amply repay those who gave their little time towards advertising the same in this manner. Mr. Hobgood is certainly a useful man, because he succeeded in getting a contribution from several parties in Dahlonega who never used any printers ink before. They will soon see the good results, which will cause them to keep in the middle of the road by patronizing their home papers. They will become prosperous and when the time comes for them to take that long rest the printer can well afford to speak a kind word about them, drop a sympathetic tear or two and tell the public that they believe they are at rest. Thank you, Mr. Hobgood.

Col. Farrow is having his telephone posts put up between Dahlonega and Porter Springs and it will not be long now before they are ready for the wire, and you can yell out "hello Porter!" if you wish.

The War in the Philippines.

At a distance of 809,000 miles from the scene of operations it is difficult for Americans to arrive at a satisfactory conclusion as to the real situation in the Philippines. For months past General Otis has been declaring "The war is over," but occasionally a cablegram brings the news that General Young and other commanders at the front are calling for more men. Long ago General Otis said he could suppress the Philippines with 30,000 men, but we now have an army of more than 60,000 in the Philippines. It is stated by some authorities that even now we have not enough men available for duty to hold the interior towns which has been taken by our troops, and that as the rainy season comes on we will be obliged to abandon some of the points which we now control, and hostilities will have to be suspended for several months.

A Marylander in the regular army doing duty in the Philippines writes, under date, of March 2, to friends at home as follows: "The war here is over, and all we are doing is scouting work, while the natives are trying to pot as many of us as they can find alone. They are a hard lot so far as I can see. They are 'amigos' until your back is turned, and then you had better look out. It is very hot here. This village is near a big mountain and on a good size river. The mountain is full of game, but we cannot shoot any, because it excites the natives. They are killing more Americans now than at any previous time. As soon as everything is known people in the United States will be sick of the Philippines."—Ex.

The One Day Cold Cure. Cold in head and sore throat cured by Kermath's Chocolate Laxative Quinine. As easy to take as candy. "Children cry for them!"

THE NUGGET.

DAHLONEGA, MAY 4, 1900.
Entered at the Postoffice at Dahlonega, Ga. P. O.
as Second Class Matter.

At Waco, Texas, one day last week a cloudburst caused the death of eight persons.

A new city ordinance of Athens compels the owners of dogs to muzzle them.

Bro. Thomas of the Dawsonville Advertiser, has nominated G. D. Bruce, of Dahlonega, for the Senate.

The floods in Texas have been the most destructive to property that have visited that state for many years.

Mrs. Susan Knowles, residing near Louisville, Ga., shot and killed her husband a few nights ago and is now ready to marry again. This is a quicker way of getting rid of husbands than to wait on the courts for a divorce.

It is rumored that Capt. H. D. Ingersoll will run for the legislature in this county on the independent ticket. The Captain will make it interesting. He is a republican but a very popular man and will likely get a number of democratic votes if he makes the race.

The Woodside Cotton Mills, capitalized at \$200,000 of which was subscribed by the citizens of Gainesville, has been secured for this city and work will commence at an early date on building. The factory will run 10,000 spindles, 300 looms, and work 850 operatives. Plain cotton goods will be manufactured.

Chas. T. Shelton, who has been operating the Longstreet mine in White county for about eight months suffered a stroke of paralysis one day last week and there is little hopes of his recovery. The right half of his body is completely paralyzed and he has not spoken a word since. Mr. Shelton has a number of friends in Dahlonega who will regret to hear of his serious illness.

Rev. J. M. Carter, while preaching a soldiers funeral in Chattanooga the other day who had died on his way home from the war, denounced the dead soldier and said "he was now in hell and his life and character should be a warning to the soldiers who remained." At this point every soldier in the church got up and left, which was just right. The whole congregation should have left the so called preacher alone in the pulpit.

It seems that no convict (unless he steals a big sum of money) gets an easy job in the Georgia chain gang. There is now an "onearned negro confined at hard labor in the camps of J. W. English & Co., at Putnam, Ga. His name is Weeks. Weeks is employed as a water carrier for the able bodied men who are at work at these camps. Although weeks has but one arm he carries four buckets of water at a time. A sort of yoke is fastened to his neck with spurs projecting over the shoulders. From these spurs are hung two buckets of water; while the negro carries a third bucket on his head and a fourth hangs from the hand of his only arm.

A telegram from Washington city says that counsel for W. S. Taylor and J. S. Marshall, in the contest in the superior court over the election cases of governor and lieutenant governor of Kentucky, filed their brief in the case in that court on the 28th ult. The brief is signed by James P. Helm, Bruce & Kennedy, Helm as counsel. The claim is made that Taylor received a majority of 2,383 votes over Goebel and it is asserted that when he was inaugurated he had "as clear a title of record as any man ever held." It is asserted that there is no contention that Goebel was elected governor, but the legislature "adjudged and determined that he had been elected," and that it is upon this contention that the action is based.

AN OPEN LETTER

From Col. W. P. Price, Who Discusses the Political Situation a Little.

EDITOR OF NUGGET:—Many enquiries have been made through the mails and otherwise, from friends who wish to know what I shall do "in the domain of politics" in the present year—1900, and what I would advise others to do.

I have been a democrat for more than forty years. I belonged to the democratic party when it had the respect of the entire country, even from its opponents; and when it likewise had the approval and enthusiasm of those belonging to it.

Four years ago, when, at Chicago the party or a majority of delegates, made an assignment of all the party possessed to Mr. Bryan. I refused to allow myself to form any part of the assets. I preserved my convictions of duty by voting for Palmer and Buckner, the nominees of the national democracy, leaving such men as Bryan, Algeld, Tillman, Teller, Weaver and a conglomerated mass of populists and silver republicans to meet defeat.

I saw what was coming. The action of the executive committee of the democratic party of Georgia, and the silver senators from the south foreshadowed the wreck of our cherished and time-honored principles, at the Chicago convention. I declined, therefore, to vote at any primary, for any purpose, in 1896, because when one votes at a primary he is supposed to pledge himself to abide the result, whether the game is fair or not.

The conditions under which the democratic primaries will be held in Georgia this year, are even worse than they were four years ago, and if the executive committee do not mend their ways, there will be very little left for the average democrat in Georgia to be anxious about in the future; at least so far as principles are concerned.

The democratic party, or the machine end of it, has turned the whole business over to Mr. Bryan, who has already prepared his platform, and thrown it to the breeze. It is now known as the "Nebraska Platform." I have read it and I do not approve it.

I will not go into any primary that will bind me to vote for something I do not approve, especially when I know all about it in advance. I shall not vote for Mr. Bryan if he is the nominee, nor any other person on his platform or on any platform that is intended to keep up the agitation of the silver question. Further agitation will do no good, and it may do much harm. When all the conventions have been held, I will then take pleasure in naming my preference for president.

I expect to vote for the State Democratic ticket. All the candidates may favor silver, so far as I care. The democrats of Georgia can, and will, take care of the state better than any other party in sight. But the national democratic party composed as it will be at St. Louis, of all the numerous factions and isms in America, will not have the confidence of the people who are looking for stability and prosperity. Before it is again fit to govern this great country of ours the party will have to throw overboard an immense amount of offensive trash and rubbish. I shall not vote in any state primary that will morally bind myself and others to a political juggernaut which crushes under it all conscientious convictions. Therefore, I shall go into no State primary in May.

As to county matters, I shall be willing, later on, to co-operate with those who are seeking by organization, to obtain the best men and the best talent to fill our home offices.

Others may do as they like but I shall avoid voting on the 15th of May.

I advise every body to register so as to vote in the fall elections. Respectfully,
W. P. PRICE,
Dahlonega, May 1st, 1900.

Too Hard to Please.

Mr. Editor:—I notice that the editor of the Signal was so scarce of news last week that he had to give an account of a little boy fight. This helps to fill up but it is very mortifying to parents for their children names to be mentioned in this manner unless all persons were treated alike. If the Signal editor wished to do the just thing he would give the "news" on all the same. The junior editor who pretends to run the Signal has frequently appeared before the mayor for disorderly conduct within the past twelve or eighteen months and nothing was said about it. Then if he is so anxious to give the "news" why did he leave out a portion of the last Superior Court proceedings? The portion left out might have been news to some. I will admit that the Nugget comes as near doing justice to all as any paper I ever read, but I feel that if its editor would say less about some of the church people who occasionally make a misstep and get off the track that it would be better for the churches.

SUBSCRIBER.
Yes, sir. This is only difference of opinion. We never belonged to the church but have been a member of several different secret societies and always found that it was an injury to the order for a member to fail to carry out his obligation, no matter how prompt he was in paying his dues. They might talk for the order and make a big display but to no effect. Same way by some of the christian (?) people that we could mention, who are willing to give ten cents a copy for the Police Gazette after night and are too poor to pay one dollar a year for a religious paper to read of a Sunday, but still they make a big to do in church matters when out nothing. No sir, we don't intend to injure any religious cause, for churches are great institutions in any community. We only give the news and if a member of the church don't wish his or her name mentioned they must get off of the devil's hand wagon and not keep the chariot so badly crowded.—EDITOR.

Graded School Honor Roll.

FOR MONTH ENDING APRIL 27.
Grade I.—Fred Craig, Pearl Rice, Larlie Ricketts, Josie McDonald.

Sec. Division.—Beulah Edwards, Maud May Ricketts, Paul Brooks, Dovie Phillips, Frank Thomas.

Grade II.—Frances Stanton, Irene Moore, Willie H. Wallace, Eva Edwards, Carrie Brookscher.
Grade III.—Pearl; Anderson, Nina Wallace, Callie McGee, Maude Jackson, Mattie Thomas.

Grade IV.—Ollie King, Fannie McGuire, Mary Thomas, Nettie Woodward, Gertrude Thomas.

Grade V.—George M. Stanton, Noah C. Head.

Grade VI.—Weir Gaillard, Fannie Wallace.

To obtain a place on the honor roll pupils must maintain a scholarship average of E (90), and be perfect in attendance, punctuality, and deportment.

On account of an unavoidable interruption of the school work the honor roll for March was not published last month.

Program of Union Temperance Meeting.

At Baptist Church Sunday evening, May 6, 1900.

Song, by congregation.
Scripture reading and prayer by the chaplain.

Song, conducted by Mrs. Characters.

Recitation, Miss Josephine Meyer.

Solo, Miss May Reese.

Recitation, Miss Isabella Characters.

Quartette, conducted by Mrs. Alkin.

Business and signing the pledge.

Declaration.

Address, Rev. C. M. Verdell.

Song, Mrs. Cook.

Benediction.

The last grand jury acted wisely when it paid no attention to the dog law passed by unwise and unthoughtful legislators.

At Ottawa, Ont., the 27th ult. two thousand buildings were destroyed by fire and several lives lost. The loss is estimated at \$17,000,000.

Mrs. Strickland has just returned from Atlanta where she went to select a lot of millinery goods of the prettiest and latest styles, all of which have been received. Call and see them.

NO USE TRYING

I can't take plain cod-liver oil. Doctor says, try it. He might as well tell me to melt lard or butter and try to take them. It is too rich and will upset the stomach. But you can take milk or cream, so you can take

Scott's Emulsion

It is like cream; but will feed and nourish when cream will not. Babies and children will thrive and grow fat on it when their ordinary food does not nourish them.

Persons have been known to gain a pound a day when taking an ounce of Scott's Emulsion. It gets the digestive machinery in working order so that the ordinary food is properly digested and assimilated.

SCOTT & BOWNE, Chemists, New York.

FOR ORDINARY.

I respectfully announce myself a candidate for Ordinary, subject to the Democratic primary to be held Aug. 15th, next.

JOHN HUFF.

THE NUGGET.

DAHLONEGA, MAY 4, 1900.

There will be plenty of peaches in this country.

If you wish to make the race for an office in this county it is time you were letting the people know it by announcing.

The workmen are moving right along with Prof. Boyd's house on West View where two more residences will soon be completed.

FOR SALE.—A good draft horse weighing 1,200 pounds. Apply to J. E. Blackburn, Dahlonega, Ga., and get a good horse and a bargain.

Merchant Moore and attorney Baker are adding much to the appearance of their premises by a good coat of paint or two on their dwellings.

Don't forget to call at this office when wanting any job work done neat, cheap and prompt. A large line of stationery just received.

Preparations are being made to light up the Hall House and Hall's Villa by electricity. Capt. Ingersoll, Mr. Thomson and several others will do likewise.

Col. J. H. Moore has gone to Nashville to be absent a couple of weeks or more. One object being to have his eyes treated the sight of which have been failing very rapidly of late.

If you wish to keep up with the mining and other local news of this section send or bring a dollar and get the information just as it happens for twelve months in the Nugget.

The people of Dahlonega had their choice last Sunday by either going to church and hearing the minister talk or walk a mile down to the Hand mine and watch the laborers work. Many preferred the latter.

It will require at least two months to complete the Consolidated Co's big hotel. It is located on a high point and when lit up by more than one hundred incandescent lights will be very attractive to the pleasure seeker in search of a nice, comfortable hotel to stop at.

Some parties got so full of intoxicants Saturday night that they rested on the porch of the telephone office and vomited great piles composed of old socks, shoes, onions, beef, peas, sweet crackers, etc. They were likely heard by the telephone operator in Gainesville.

Last Saturday afternoon four hands, Floyd Brooks, John Spencer, Emanuel Garrett and Tom Johnson, were injured by a falling timber in the big shaft down at the Hand mine, by a hook breaking which held the timber that was being let down. Johnson was hurt the worst, having one of his feet severely mashed but fortunately no bones were broken.

Two civil righters, Charlie Howell and an Elford woman, who commenced calling each other wife and husband a while before court convened, created quite a sensation the other day among the church members of their race when it was reported that they had never been married. Albert Coffee, who recently turned his back on the devil and joined the church went to the ordinary to see the record of their marriage but none was to be found for no license had even been called for. They had been occupying the same room in a very prominent place near Meade's stable for some time but all thought they had been wedded and settled down in the matrimonial boat for life. But not so. They had escaped the grand jury but if they don't fail to divide their household goods and sleep under different roofs from this time on each may have to pay a fine of one dollar and cost, besides being brought to the notice of the next grand jury.

Mr. Hunter has commenced work on the Baptist church tower.

Mr. Prater has erected a new store house between his residence and Mrs. Stricklands on Hill street.

J. H. Moore don't only keep a market but will sell every thing you want in the family grocery line as cheap as the cheapest.

Stringer and Donaldson finished the pillars for the Castleberry bridge last week and we suppose the bridge men will commence their work at an early day.

The house which Wm. Vaughn occupied was sold the other day and being unable to get a house in Dahlonega he had to send his family back to Dawsonville until he could find one vacant.

G. McGuire, who recently purchased Judge Britain's house and lot has moved the fence in, making the street several feet wider as soon as the well, which is now on the street, is filled up.

John Moore ran against a wire used for a clothes line the other day and cut a gash under his left eye, which came near striking the eyeball. This makes the fourth or fifth time he has injured this same eye within a short period.

After going to press we noticed that the date of our paper was wrong on the first side which was corrected as soon as discovered. This error was caused by us listening to a lady's voice that day not far away singing the song of "I will meet you, I will greet you, when the roses come again." This had a charming effect on us and caused us to wish that we could call back sweet sixteen again.

Rev. Thad Pickett was in Dahlonega last Monday. The last time Mr. Pickett visited our city we believe he was a candidate for congress, but we suppose that he was on a different mission this time than that of politics, for he remarked during that campaign that if he was beaten he would leave the district. He was defeated and sure enough he left and located in Gordon county.

Sanitary inspector Coffee went around the other day with his paste cup and posted up a lot of notices ordering people to make a general clean up where the premises didn't belong to some friend, a councilman or a relative, in various places when the gates were easy to unlatch and he didn't have to climb the fence. But what good did it do? Some paid attention to it and others didn't and no one for neglecting to obey the orders have been punished so far. It is just as we predicted, and will repeat what we said last week, that the only way to put the sanitary condition of our city in a healthy state and to keep it so is to levy a sanitary tax and hire a man to run a scavenger wagon. Yes, we had forgotten, this move of the council did do some good too, for it caused the inspector to clean out his water closet for the first time in a month. So those trying to enforce the law on others need watching.

The Gainesville mail was about four hours late last Monday again on account of one of the poor old horses which didn't look like it had flesh enough on its body to keep the bones in position, giving out. One of the contractors drivers went out two miles and put in a fresh horse by the side of the other and came into town beating and running them like he was trying to escape from a forest fire, breaking a shaft as he turned the corner at Prof. Vicker's, but on he drove at a rapid speed until reaching the office when it was found that a part of the harness was missing and the horses sides moving like those of a bellows. This manner of treating horses is against the laws of Georgia but it is never noticed here. Our citizens are going to get up a petition and appeal to the department for a better mail system from Gainesville to Dahlonega—asking that the mail be brought in on schedule time.

See tax receivers last round in another column.

A little child of Aggie Daniels was buried last Saturday.

J. W. Chapman now occupies a position behind the counter of J. M. Brooksher.

Dr. Groves, the dentist visited Atlanta last Monday in the interest of his profession.

This is May and big religious meetings, singings and foot washings will soon begin.

The public property belonging to the county known as the Public Spring lot, was sold last Tuesday, and bid off by Capt. Hall for \$154.

Persons who have not been to Dahlonega in a year would be surprised to see the improvements that have been made here in that length of time.

We understand that a country lady came into town last Sunday and whipped one of her sisters who she believed was too intimate with her husband.

Prof. Colvin will deliver the annual address of the Phium Society at college hall next Monday night. His subject will be: "Looking Forward." Everybody invited.

Dr. Stowe has purchased one-half of the lot known as the Meaders property just below the old Signal office where he will likely build an office in the near future.

Councilman E. E. Crisson was taken sick while returning from Sunday school last Sabbath and is now confined at his residence with a severe case of pneumonia fever.

The Dahlonega Telephone Co., are not feeling bad over their investment by any means. The investment is a good one. Last month it paid ten per cent on the amount invested.

Capt. F. W. Hall is making arrangements to convert a portion of his storage house recently built on the Hope lot owned by him, into a dwelling. A nice cottage is also to be built on the same lot.

Last Tuesday the citizens of Dahlonega were somewhat surprised when Mr. F. G. Jones brought in his bride, being Miss Fletia Butts, daughter of James Butts, of Union county.

Dr. M. N. Stowe, has returned to Dahlonega for the purpose of making it his future home. He will receive his drugs and medicines next week and be ready to serve those who desire medical attention.

Don't get any more baking powders but buy butter milk from F. M. Williams & Son and have good biscuits. They are running a dairy now and you can get milk sweet or sour, or butter delivered at your door every morning. See ad. elsewhere.

Two peddlers, who secured license from Mayor Price the other day, are worrying some of our merchants by making a thorough canvass of the town with a lot of cheap goods. Don't let this trouble you. Continue advertising in the Nugget and place the price of your goods at such a low price that it will drive all peddlers away.

J. P. Stegal and his son Paul, of Emmerson, Ga., came in last Monday to be present at the big jubilee which was spoken of some time ago, biffed to take place on the first day of May when the large Consolidated mill got ready to start. Had they been taking the Nugget they would have seen more than a month ago that this jubilee had been indefinitely postponed and been saved this long trip.

Last Monday merchant J. E. McGee received the sad intelligence of the death of his father, Patton McGee, which occurred in Union county the day previous. The deceased had been sick for more than a year, although his death was unexpected. Mr. McGee came to Union county from Tennessee in the year 1875 where he had been residing ever since. Although not a member of any church he acted in a manner to cause the people to think that he is at rest. His age was 63.

Farmers are considerably behind with their work in this county on account of the wet weather.

"Uncle" Jesse Chester, a resident of Nimbalewill district, was thrown from his mule the other day, dislocating one of his shoulders.

Marshal Grizzle carried Jim Homen to Atlanta last week who had been bound over for handling liquor contrary to the laws of the United States.

Capt. Ingersoll and Mr. Thomson, of Dahlonega, both attended the Consolidated Co's annual meeting in Toledo, O., which convened last Wednesday.

The revenue officers went down to Dawson county on a raid last week but were too late. When they got to their destination there was no still liquor nor man to be found.

W. A. Waters, Sr., was carried to Atlanta last week by Marshal Grizzle on a bench warrant charging him with making liquor not in accordance with Ucle Sam's rules and regulations.

S. S. Chester, of Nimbalewill district, was tried before Com. Baker last Friday, charged with making blockade liquor, but there was not proof sufficient to bind him and the defendant was discharged.

Both pumps at the public wells have been put in "running order" again. These pumps are often out of fix and if they don't do no better it would be best to take them out and use buckets with chains.

The building belonging to Mrs. L. Q. Meaders, above F. D. Boatfields, is being touched up with paint and will soon be occupied by this lady and her family who recently returned from Appling, Ga.

J. F. Castleberry, proprietor of the Dahlonega Hotel, formerly known as the Burnside has had a nice sign painted for this well known hotel which occupies a conspicuous place in front of the building.

This country is inhabited by some of the most industrious ladies on the globe. But few of them are afraid of work. We noticed one the other day spading up dirt like a man. This was worth more than four tunes on a piano.

The Colored Odd Fellows thanksgiving takes place at their church in Dahlonega next Sunday. The sermon will be preached by Rev. Samuel Goudlock at 11 o'clock. The march will take place some time before that hour from the public square to the church.

A gentleman while in Dahlonega the other day informed us that High Shoals district in Dawson county was without a preacher, Justice of the Peace, Notary Public or bailiff and the people there were all getting along harmoniously and doing well. They have nothing to bother them, and all work and make a good living.

While some parties were up in the mountains making a survey in the interest of a mine recently their instrument lead them to a still place where the occupant had just finished up a run and left out with his liquor just in time to keep from being seen by the surveyors, but everything looked very fresh and had the whiskey scent.

The side walk up by Capt. J. W. Woodward's stable is being put in apple pie order. Now if the council will fix the walk leading from the public square to the jail so the mud won't be shoe mud deep when it rains, they will be entitled to the thanks of the court and the citizens generally, for it is used more than any other walk in the city.

The first sermon was delivered in the new Presbyterian church at this place last Sunday at 11 o'clock by Rev. Mr. Simpson, the pastor. There was no preaching at either of the other churches which caused the able divine to be listened to by one of the largest congregations ever assembling at any church in our city, all of whom listened to his excellent sermon with much interest.

Some twenty northern visitors are expected in Dahlonega to-morrow.

Dr. Stowe has purchased the town lot below the rock wall on College street.

It was reported that Judge Tato wouldn't be a candidate again but he informs us that he will.

The Demorest base ball team came down last Wednesday and defeated the college boys 27 to 11.

We are glad to state that Rev. W. H. McAfee is able to be out again after a severe spell of fever.

Prof. B. P. Gaillard returned from Macon last Friday where he had been to attend a meeting of the Masonic fraternity.

Mr. Chas. Sullivan was wedded to Miss Sallie Wehnt last Sunday in the western portion of the county by Rev. J. K. Bearden.

The rain last Wednesday was the heaviest known here for more than a quarter of a century. It didn't last long, if it had the damage would have been great.

A gentleman was up from Anuraria district last Tuesday trading with one of our merchants who advertised some bargains in the Nugget last Friday. This shows that it pays to advertise.

It is said that the superintendents at one of the mines here don't want their hands to talk while at work. Most laborers here are poor but won't act any part of a convict unless convicted of a crime and sent to the chain gang.

We have just received at this office some of the best stationery ever brought to Dahlonega. Come and see it and have some job work done. Help those who help you by patronizing your home paper which is continually speaking in the interest of the town and county and of course benefits you.

Some merchants make flour, meat and coffee their special line of stuff to cut prices on, and buyers should appreciate the chance given to buy at, and sometimes, below cost, now B. R. Meaneers & Son, sell everything at a short profit but the line they touch the bottom on, for the effect of advertisement, is shoes, they don't carry more of a kind, but have a nice assortment. Go there before the numbers you want are gone.

It looks like sensations will never cease in Lumpkin county. The news reached us from Chestate district that that section has lost a male member of the church. He is not dead but has gone to the "mountains of Hebsedam where the lion roareth and the whangdoole morneth for his first born," caused by a young girl asserting that he had robbed her of her character, who has a little child to cry and remind her of the one who has deceived her.

It is said that the last grand jury returned four true bills against Tessie Owens for different offenses. This noted woman walked the streets of Dahlonega with a pistol in her hand and became a perfect nuisance before she departed. She is now in Gainesville and should be sent to the chain gang if the cases made against her are true, and we have no doubt about them being so, matters not if she is a woman. Remember that a woman was sent to the chain gang from this county six months ago for a less offense than Tessie is charged with.

Let us see whether the Temperance Union which convenes next Sunday night means business or not. Not long since a certain political party met in Atlanta and endorsed the temperance movement. It is true that there are members belonging to the Temperance Union in Dahlonega who talk and teach both republican and democratic doctrine, but in order to accomplish much in the temperance movement they will have to endorse the party that has made a move in this direction on a larger scale, else blow out the lights and quit trying to make such a big display, for the preachers tell us that a house "divided against itself can not stand."

Mining Notes.

Several new veins were struck down on lot 810 last week that are large and good. The mill is running and the plates look fine.

Barley Grain was in the city last Monday and while here traded the Amicalola Falls which he owns in Dawson county to the Crown Mountain Co. The falls are lofty and afford ample water power for any purpose.

The Gainesville Cracker of last week states that the Colorado Georgia Smelting Co., have decided to build a large smelting plant in that city, work to commence at once so as to have it in operation by the early fall.

The meeting of the stockholders of The Crown Mountain Gold Mining and Milling Co., occurred in Dahlonega last Wednesday during which all the old officers were re-elected to-wit: President, A. J. Warner; Vice-President, Col. J. H. Moore; Secretary and Treasurer, J. F. Moore.

The annual meeting of the stockholders of the Dahlonega Consolidated Gold Mining Co. was held at Toledo, Ohio, last Wednesday. So far we have heard nothing from it but suppose that the same old officers were re-elected as they have left nothing undone that would be of interest to the company, is why we think no changes were made.

The lease of J. F. Moore on the Singleton property expired last Monday and this celebrated mine is now in the hands of the new Standard G. M. Co. Mr. Moore, who is general manager of Crown Mountain Gold Mining Co., put all the hands he had at work down there on the last named property the following day, and many more will be added in a few days.

Chas. Renner, Manager of the Eureka Mining Company, of Canton, Ohio, now operating the Moore mine in Rabun county was in Cleveland Wednesday. He says that his mine is paying handsomely and that he is now enroute to purchase heavy machinery with which he can work on a much larger scale. Mr. Renner also says that the corundum mines in Rabun are running full blast and that the output is very satisfactory.—Courier.

The water was turned on to the big Hand mill last Sunday for the first time, but it required work on the tubes both day and night last week and several hours Sunday morning to get it there. Soon after the gate was raised the water burst through the reservoir causing a small washout and a short delay. The machinery moves like clock work. The belts, etc., are being adjusted and by Monday they will doubtless be ready to put the stamps in motion. The mill is certainly a fine one and all the work perfect in every respect.

We notice that the Consolidated have made change after change until most all their superintendents are now western miners. Not long ago a gentleman who had worked both the mines of Georgia and the west said that "Georgia miners understood Georgia dirt better than western men, and western men understood western dirt better than Georgia men." It will not be long before it will be known whether the gentleman was correct in his assertion, as the big Crown Mountain company just beginning work will operate their mine principally with Georgia miners.

The Crown Mountain Co. seem determined to leave nothing to "chance" or begin any of their construction by guess. Last week Capt. Fry, with a number of hands spent several days in surveying and locating the canal at the Seabolt shoals. By a short canal he finds that the power can be greatly augmented. He returned Saturday having finished this work. This week he returned to the falls and put on fifty hands or more in the construction of this canal. The company by this canal expects to develop at least fifteen hundred horse power without having to build a dam, which is more than double the amount required for their plant, enabling them to rent or let enough power to other mining companies to pay for operating their own. The company will have the water power ready before the dynamo and other machinery can be delivered.

CROWN MOUNTAIN.

A Great Gold Mine Situated
Half a Mile from the
Court House in Dahlonega.

We present to our readers this week a cut of a part of the gold property now known as Crown Mountain, situated one-half mile south of the public square of Dahlonega, from the south-east corner of which this picture was taken. This shows Crown Mountain proper. The possibilities of this justly celebrated property was "the dream" of the miners of this section even before Dr. Stephenson proclaimed to the California emigrants that there "was millions in it."

When we consider, what is known to exist and what is reasonably supposed to exist on this property, its value as a gold mine is truly wonderful and has never been over estimated.

Upon this property is found the largest and richest saprolite zone

vein at the south base. The summit vein on the apex, and the Roberts shoot on the eastern slope of the mountain. Besides these mentioned numberless other gold bearing veins which pay to handle have been exposed. The Fish Trap lead runs under the mountain as will be seen in the cut on the south side and the belt from the Findley ridge to the river is now controlled by the Crown Mountain Co. The Findley lead including the noted Findley shoot, extends through the property as can be plainly seen, where it is partially cut in the south tunnel. It is reasonably supposed that the Lockhart and Tabloneka leads, which he immediately north of the Findley, run through the property, and it is implicitly believed by those who ought to know something of the formations of the district, that the Wallace vein is identical with the Singleton on the Tabloneka.

The Hand, the Yaboola as well as the Barlow leads all run south of the great "brickbat" dike, which is exposed on the public square of Dahlonega. This "brickbat" dike

An Old Idea.

Every day strengthens the belief of eminent physicians that impure blood is the cause of the majority of our diseases. Twenty-five years ago this theory was used as a basis for the formula of "Brown's Iron Bitters." The many remarkable cures effected by this famous old household remedy are sufficient to prove that the theory is correct. Brown's Iron Bitters is sold by all dealers.

CROWN MOUNTAIN—WHICH IS TO BE MINED FOR GOLD.

The Forbearance of Editors.

Editors are the first to hear of gossip, of scandal, indiscretions of men and women, things unfit for publication, intrigues, clandestine meetings, night buggy rides, young girls gone astray, flirtations of men, and in fact all neighborhood scandals. Editors generally know of all the naughty doings in a community, no matter how secret. If half we hear was published, divorce suits would follow in some cases, social ostracism in others, shot guns and lynching, desolate homes, shame, humiliation and misery. The editor learns much of the hypocrisy of life and it is a wonder he believes in anything on earth or in hereafter. People who abuse the editor the loudest sometimes owe their standing in society to his forbearance.—Osborne (N. Y.) News.

It was Walter Howell, colored, that created the sensation in Dahlonega last week and not Charlie,

which has ever been discovered on the Appalachian range. The richest placer mine—the Tan Yard branch—which has been worked over and over again for the last seventy years is at the base and is fed by the property.

The largest gold nuggets and the richest quartz rocks of the Dahlonega district have been found on and at the base of Crown Mountain. The largest pure quartz gold bearing vein and the largest gold bearing sand vein that have been cut in the district were cut on Crown Mountain.

The quartz and sulphure vein which has yielded the most gold—the Wallace—and been most profitably worked in the district is cut on both the Preacher and Columbia lots. The noted Reid vein which made the Preacher and the Stanley lots famous, extends through the property.

Some of the richest small veins to be seen in the district are to be found here, including the Henry

runs through and south of the city cemetery which would put all these leads and veins south of that point and on and under Crown Mountain. These suppositions are so well supported by well known geological conditions that the conclusion is irrefragable that Crown Mountain is the mother lode and should be classed as the greatest gold mine of the district as well as one of the great gold mines of the world.

The location of the mill on Tan Yard branch is an ideal one. The saprolite and soft ore can be transported by water and the heavier ore in cars by gravity from all points of the property thus making the cost of transportation nominal.

The water power owned by the company by which electricity is to be generated and transmitted to the pump and mill is probably the best in the county, furnishing double the power necessary to operate anything connected with the plant.

We will have more to say about this magnificent water power in a future issue.

New Discovery.

In the hills 17 miles North of Dahlonega a large vein of quartz which assays to be worth as much as the average ore in the Dahlonega gold field, has been discovered besides numerous other properties. This is an undeveloped section and the property can be bought now at a low figure. For further particulars address

D. L. PITNER,
Dahlonega, Ga.

The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the affliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by The F. W. Hall Mose Co.

Cold in head and sore throat cured by Keen's Cold Cure. Laxative Quinine. An easy to take as candy. "Children's Candy."

THE NUGGET.

DAHLONEGA, MAY 11, 1900.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Mining Notes.

Mining operations in Lumpkin county are unusually active now.

The shaft at the Betz mine has reached a depth of 250 feet and is very rich.

They have got their pump running at the Kingsbury and the mine is very rich.

Some hands are at work at the Battle Branch mine where good shows are being made.

They are still on the move down at the Stewart mine. The last clean up was a good one.

The ten foot vein at the Sumner mine is showing up well, besides numerous small ones.

A ten stamp mill is being erected on the McIntosh property. They are down on the vein 150 feet and it is good.

Geo. Wilson's placer diggings are paying well—making about three dollars a day, in the lower part of the country.

At the Hargrove mine they will commence the erection of a mill in a few days. This is a valuable mine and no doubt will pay well.

The pump at the Calhoun after being out of order for some days, has been repaired and things are moving along as usual. The mine is very rich and nuggets are picked up every day.

Work is going on with good results at the Turkey Hill. Another big strike of a four foot vein was made recently worth ten dollars per ton, and smaller ones worth from 25 cents to \$2.00 a pan.

The purchase of Georgia gold mines and the preparation to work them on a large scale continues.

More than a score of gold mines are now being actively worked. Both the number of the mines and their output will largely increase this year.—Blue Ridge Post.

Crown Mountain Co. commenced their dam on Tan Yard branch last Monday. When completed it will be 15 feet high and 238 feet long. A big force of hands is also at work on the canal up at Seabolt falls where the electric power is to be generated for the purpose of operating the company's property.

William Etris has sold the mineral interest in his land to the Eureka Gold Mining Co., of Canton, Ohio, a company that has been doing a great deal of prospecting in this part of the state, and who own considerable property in Rabun county. The consideration was \$3,000 and it is believed that the company will at once begin active operations.—Cleveland Courier.

Work was suspended some two or three weeks ago at the Longstreet mine in White county on account of Chas. F. Sheldon, the general manager who suffered a severe attack of paralysis, but a few days ago operation was resumed by W. A. Danforth, of the firm of W. A. Danforth & Co., owners of the property. A large vein of sulphurets from 8 to 12 feet wide has been opened and the ore taken from it will doubtless yield good as the outcropping from the vein assayed give most satisfactory results.

The Toledo (Ohio) News gives the following account of the annual meeting of the Dahlonega Consolidated Co., which was held in that city last week, to-wit:

The Dahlonega Consolidated Gold Mining and Milling company of Dahlonega Ga., held its annual meeting in Toledo today. Prominent stockholders from all over the country were present. President J. W. Adams of Chattanooga, Tenn., made his annual report.

It was received with marks of the unqualified approval. He announced the completion of the big reducing mills. They started last Monday and soon shining bars of gold will be on hand.

The improvements made were far in excess of what the prospectus called for. The development

showed that the ore, in quantity and quality surpassed the most sanguine expectations. At the conclusion of President Adams reports J. M. Bloomer offered the following resolutions which were unanimously adopted:

THE RESOLUTIONS.

Whereas, The prospectus put forward by the Dahlonega Consolidated Gold Mining Company, provided for a reduction plant and other equipments of sufficient capacity to mine and mill four hundred and fifty tons of ore daily, and this proposed improvement consisted largely of remodeling and equipping the old, antiquated four hundred and fifty pound stamp mills then on the property, and,

Whereas, The company, in view of the demands of modern mining and milling on progressive and economic lines, required up-to-date mills and more extensive development than had been proposed, and,

Whereas, One of the most complete, up-to-date stamp mills, having capacity for reducing from five hundred to six hundred tons of ore daily and equipped with all the latest and most improved electrical apparatus and air compressors and electrical railway motors and cars, has been completed, and,

Whereas, The most modern chlorination plant known, of four times the capacity proposed by the prospectus, and a structure has been erected capable of doubling its present capacity with great economy, and,

Whereas, An expenditure has been made on the water power that has rendered it practically new and very extensive additional water power has been secured for the company, and,

Whereas, A company's store, of great value and convenience, and a large and extensive modern hotel have been added to the property, and,

Whereas, Properties have been secured that have given to the Consolidated stockholders a valuable stock dividend, and other advantages of great benefit in development and operation, Therefore, be it

Resolved, By the stockholders, in annual meeting assembled, that the report presented by President Adams, be accepted and the modifications of the improvements proposed by the prospectus which have given the company a superior development, be approved, and be it further

Resolved, That the thanks of the stockholders be hereby tendered to the board of directors, to President Adams and General Manager Ingersoll and to all other officers of this company for the sacrifices of comfort they have made and for the faithful discharge of their duties and for their untiring efforts for the welfare and success of the company and especially for the benefits and economies that the company has gained through their foresight in the financing and perfecting of this stupendous enterprise.

The meeting then proceeded to the election of a board of directors. The original board was elected with the addition of Louis Siebert, a prominent Columbus capitalist, which increased the board from 9 to 10.

BOARD OF DIRECTORS.

J. W. Adams, Geo. H. Breyman, H. D. Ingersoll, Frank G. Thomson, F. R. Adams, R. C. Thomson, M. Hopkins, J. G. Rosenthal, L. Siebert, Wm. M. Fisher.

The following stockholders representing over \$4,000,000 of the stock were present:

J. W. Adams, Chattanooga, Tenn.; Geo. H. Breyman, Atlanta, O.; H. D. Ingersoll, Dahlonega, Ga.; Frank G. Thomson, Toledo; F. R. Adams, Delaware; R. C. Thomson, Dahlonega, Ga.; M. Hopkins, St. Clair, Mich.; J. G. Rosenthal, Delaware, O.; L. Siebert, Wm. M. Fisher, Columbus, O.; S. S. Shatt, Spencerville, Ind.; Dick Townsend, Decatur, Ind.; Chas. Baychley, St. Clair, Mich.; Jos. Sanders, Petrolia, Ont.; Edward B. McCarter, O. G. Orebauagh, Wm. Jacobs, C. E. Munson, John Siebert, Columbus, O.; Harry A. Curant, Monroe, Mich.; Dr. J. W.

Smith, Ypsilanti, Mich.; Judge F. T. Walcott, Port Huron, Mich.; E. C. Reor, St. Clair, Mich.; Herman Miller, Walter Pickens, G. E. Osmond, L. Beckman, F. E. Jones, W. H. Hetrick, M. Murphy, F. Welch, J. P. Coates and J. M. Bloomer, Toledo, Frank Marten, Pomboryville, O.

The board of directors met and organized with J. W. Adams, president; Geo. H. Breyman, vice president; R. C. Thomson, secretary and treasurer, and H. D. Ingersoll, general manager.

A brewing company of St. Louis has just closed a contract for a hundred million bottle stoppers.

The board of roads and revenues of White county have decided to build a new jail.

Two negroes have been appointed to take census in Coffee county which may result in trouble, so says a correspondent.

A two hundred pound lady fell into a forty foot well in Atlanta one day last week containing about four feet of water. It didn't hurt the lady much but knocked about all the water out of the well.

The hail storm which visited Gwinnett county last week did great damage. The lower part of the county is almost ruined. The wheat fields are a total loss. The guano that had been put in is a total loss.

Politics are now getting pretty hot most all over Georgia. Lumpkin county cannot be counted now as she is yet as cool in this respect as an ice factory, though things are likely to get warm up here after while.

Mayor Woodward of Atlanta seems to have been acting naughty again. Rev. L. C. Broughton for the second time denounced him from the pulpit last Sunday night.

The divine says that the mayor was drunk last week and visited prostitute houses and should be impeached. Not long ago Mr. Broughton made similar charges against Mr. Woodward who confessed and signed a pledge that he would do no more, but from what the Doctor says he has missed the k again. He has since been asked to resign by the council.

By virtue of an order of the Court of Ordinary for said county, granted at the May term, 1900, the undersigned, as executors of the last will and testament of G. Hughes, late of Lumpkin county, deceased, will sell at the Court house in said county, on the first Tuesday in June, 1900, between the usual hours of sale, at public outcry, to the highest bidder for cash, all the notes belonging to the estate of said G. Hughes, deceased, which are deemed insolvent or doubtful. A complete list of said notes may be seen of file in the office of the Ordinary of said county. Same will be sold in blocks, or packages of 5 notes each.

This 7th day of May, 1900, J. W. Boyd, T. C. G. Rogers, Executors of last will and testament of G. Hughes, deceased.

ROAD NOTICE. Whereas certain petitioners have made application to this court praying for an order granting the establishment of a new road commencing at the ford of the Yahola creek in the Lavada Head farm and running by the way of Andrew Head's house to the old road near the Cooper camp road, whereas commissioners appointed for the purpose have been received and reported to me that said road will be of much public utility. Now this is to cite and admonish all persons that on and after the 1st Monday in June 1900, said new road will be granted if no good cause is shown to the contrary. Given under my hand and official signature this 8th day of May 1900.

W. H. C. TATE, Ord'y.

Georgia, Lumpkin County.

To whom it may concern, A. D. Adams having made application to me in due form to be appointed permanent administrator upon the estate of J. M. Adams, late of said county, notice is hereby given that said application will be heard at the regular term of the Court of Ordinary for said county, to be held on the first Monday in June, 1900. Witnesses my hand and official signature, this 7th day of May, 1900.

W. H. C. TATE, Ord'y.

Georgia, Lumpkin County.

Galvin S. Safford, guardian of Daniel Davis, having applied to me to be discharged from such guardianship. Let all persons concerned show cause before me at the Court house in said county on the first Monday in June, 1900, by 12 o'clock m., to show cause why such discharge should not be granted. Witnesses my official signature, this 7th day of May, 1900.

W. H. C. TATE, Ord'y.

Georgia, Lumpkin County.

Notice is hereby given that a years support has been set apart for the widow of Francis Gibert deceased by appraisers appointed for that purpose, and if no legal objections be shown to the contrary, years support will be allowed and become the judgment of the court of Ordinary of said county on the first Monday in March, 1900.

W. H. C. TATE, Ordinary.

May 7th 1900.

J. W. Woodward, JOHN H. MOORE, W. P. PRICE, JR., commissioners.

ANNOUNCEMENTS. FOR SHERIFF.

I respectfully announce myself for Sheriff of Lumpkin county subject to the democratic primary to be held August 15th next. J. M. Davis.

FOR ORDINARY.

I respectfully announce myself a candidate for Ordinary, subject to the Democratic primary to be held Aug. 15th, next. JOHN HUFF.

DO YOU WANT A MINE.

In Dawson or Hall county? If so call or write to Z. V. Hewett for RELIABLE information. Dawsonville, Ga.

DAHLONEGA DAIRY.

F. M. Williams & Sons, Proprietors.

Milk delivered to any part of the city promptly. Leave orders at the residence of either. May 4th.

SHERIFF'S SALES.

Georgia, Lumpkin County.

Will be sold, on the first Tuesday in June 1900 at public outcry, at the Court house door in the city of Dahlonega, within the legal hours of sale, to the highest bidder for cash, the following property to-wit:

Lots of land numbers 723, 934, 1020, 1027, 1031, 1033 and 1039 all in the 11th district and 1st section of Lumpkin county, Georgia, containing in each lot several more or less acres. Laid on as the property of McDuffie R. Moore by virtue of and to satisfy a fi. fa. issued from the Justices Court of the 8th district, G. M. M. for and of the First National Bank of Gainesville, Ga., vs. McDuffie R. Moore, C. M. Moore and H. D. Ingersoll as principals and J. C. Britain as security. Said fi. fa. being now proceeding for the use and benefit of said J. C. Britain security as aforesaid. Levy made and returned to me by J. C. Williams, L. C.

Also at the same time and place and upon the same terms town lots of land numbered ninety-nine and one hundred, in the town, now city of Dahlonega, Lumpkin county, Georgia, according to the plan of said town as originally laid out of lot of land No. nine hundred and fifty in the 12th district and 1st section of said county, together with the tenements and improvements thereon, whereon Mattie E. Thomas and H. H. Thomas and their family now reside. Each lot containing one-fourth of an acre more or less. Said property levied on as the property of Mattie E. Thomas to satisfy an execution issued from the Superior court of said county in favor of Thomas C. Hughes and J. W. Boyd executors of last will of G. Hughes deceased against Mattie E. Thomas. This May 8, 1900.

J. W. DAVIS, Sheriff.

ANNOUNCEMENTS. FOR SHERIFF.

I respectfully announce myself for Sheriff of Lumpkin county subject to the democratic primary to be held August 15th next. J. M. Davis.

FOR ORDINARY.

I respectfully announce myself a candidate for Ordinary, subject to the Democratic primary to be held Aug. 15th, next. JOHN HUFF.

Local matter on every page.

Quarterly meeting commenced here last Wednesday night.

Mr. Mac Rider was wedded to Miss Celia Ravan, daughter of Mr. West Ravan, on last Sunday.

See legal sales in this issue. Some valuable property will be sold in Dahlonega on the first Tuesday in June.

The registration book for the congressional primary closed last Saturday. But little interest was taken in it here as only 550 persons registered.

U. S. pension agent Walker, of Belton, spent last Tuesday in Dahlonega, making out claims for those who think they are entitled to draw something.

People are coming many miles now to see the big Hand mill in motion. It is a great sight and has no comparison in the south and but few in any country.

Last Tuesday morning J. E. Moore's horse broke off the decayed shade tree which it was hitched to in front of his store and ran across the square at full speed making a big sweep but was not injured nor injured anything.

Our city was visited first of the week by Dr. W. M. Williams, of Cincinnati, O., J. McCabe, of Dayton, O., and R. L. McCabe, Delaware, O. All being interested in the Crown Mountain gold mine.

Dahlonega now has a goose-law. The old gander or goose do not have the privileges of a dog here now. When the tax is paid on a dog it can go where it pleases, but no amount of money can secure a goose's freedom on the streets.

A petition is being circulated and signed by some of our citizens asking that Rene Adams be pardoned who is now in the chain gang serving out a twelve months sentence for keeping a lewd house. (She has already served six months of the time.

The two Mormon elders who visited Dahlonega some time ago are still in this county making a thorough canvass. They have been preaching out in the western portion of the county and are now up about the foot of the Blue Ridge near Two Run.

Persons must not become offended because we require all fees for legal advertising and announcements in advance. Remember when you desire to take a ride on the railroad you pay for the trip long before you see the train and never think hard of the managers. The law has given us this right, we have made it our rule and all must come to it alike.

Monday night Prof. Wilber Colvin delivered a very able lecture to the members of the Phimu Society. His subject, "Looking Forward," was discussed under three heads: The world looking forward, the nation looking forward and the individual looking forward. Under the first division were discussed those things that look to the future good of all mankind. Under the second the perils and safeguards of the nation were pointed out, and under the third the individual was admonished to look forward with a manly perseverance and never-dying energy.

It seems that the city council are of the opinion that two telephone lines from Gainesville to Dahlonega will not pay judging from their actions last Tuesday by refusing to grant the company desiring to build one via, of Auraria the privilege of entering the corporate limits of Dahlonega. We think that this route would pay much better than the one by Murrayville and really ought to have come by Auraria at the start but the stockholders thought differently, but it is very doubtful about two lines from Gainesville to Dahlonega ever paying unless there are some branch routes.

Men with good teams find ready work in Dahlonega now.

The cry in Dahlonega is still "give us brick and more lumber."

Whenever one of our subscribers becomes dissatisfied with the Nugget all he has to do is to let us know and we will refund his money.

Capt. Hall is going right ahead with his improvements on the lot fronting the Nugget office and in a short while you will scarcely know the place.

Eggs are higher in Dahlonega now than they have been at this season of the year for a long time. Countrymen are getting ten cents in cash and 12 1/2 in trade.

W. J. Worley is having the painter to touch up his residence. Let others do likewise and Dahlonega will soon be shining almost as bright as new silver money.

Davie Grindle is fitting up a saw mill on his property a few miles above Dahlonega and from the size of the order he gave us the other day for lumber cards he means to do a big business.

What is the matter with our brick manufacturers? It is time that they were at work. Quite a number of houses are going up and not a single brick to build a chimney, and houses without chimneys won't be worth much.

"Uncle" Jack Austin, one of the oldest and best negroes in the county, died at his home in Martin's Ford district last Sunday. He was liked by both white and black as he was always kind and obedient and never harmed any one.

We are glad to learn that Dr. N. F. Howard, who has been quite sick for several weeks is much better, who we hope will be out again in a short time. The Doctor has been in Dahlonega a long time. He is a good, kind man and we all greatly miss him when he is sick.

A. W. Cain, the present county surveyor of Lumpkin county, tells us that he will not be a candidate for re-election. Mr. Cain was elected to this office without opposition at the last election and could be so again if he wanted the place for he has filled the office to the satisfaction of all.

A telephone line will be constructed from the foot of the Blue Ridge to Dahlonega by the Crown Mountain Co., so as to enable them to know what is going on at the head of the dam where the electric power is generated and all along the line down here to the mine where the precious metal is to be taken out.

We learn that since the Crown Mountain Co. commenced their canal up in Chestate district that many of the farmers of that section have quit tilling the soil and gone to work for the company. It is said that this district is the greatest blockading section in the county. Now who will make the liquor to supply the demand for "medical purposes?"

President McKinley on the 20th of April sent to the Senate the name of Lieut. F. L. S. Price, to be first Lieutenant from March 11th, 1900. His examination took place at Illoilo. Lieut. Price is a former student of the N. G. A. College and citizen of Dahlonega. This position pays him \$1,800 a year. We are always glad to see any of the old college boys doing well, more especially when their home is in Dahlonega.

General John B. Gordon's power over men is wonderful. In Texas town the other day where he had stopped while on a lecturing tour, a meeting was in progress. The preacher had used all the persuasion at his command to induce the sinners to turn from their evil ways, but with little effect. He then called upon the general to speak a few words, which he did. At the conclusion of his talk many hardened old soldiers went forward for prayer, and we are told that forty were converted.—Columbus Sun. Let the General come to Dahlonega.

W. C. Crow, who was adjudged insane some days ago was carried to the asylum by R. C. Meaders first of the week.

Col. Farrow was up at Porter last week looking after his telephone line and shaping up things for summer visitors.

The residence of Dr. Howard caught a fire one day last week but was discovered before any damage was done to amount to anything.

The dates given on the papers of our subscribers at a distant are not meant for the time they expire but the time you subscribed or renewed.

Marion Chester has purchased a lot on Park street where he will build a house and move to it at an early day so as to be convenient to his work which he is superintending on Crown Mountain property.

The large number of hands which left here last week with their knapsacks, for Chestate district to work on Crown Mountain canal reminded us of when the soldiers used to start off to the war except there was no crying among them or their relatives.

The Consolidated Co. are going right along with their trolley line from Dahlonega to the Hand mine. It is graded from the mine nearly to the colored Baptist church. This will be a most delightful ride down to the mines and up the Yaboola when completed, and the cars will be crowded nearly all the time.

The Colored Odd Fellows of Dahlonega held their annual anniversary last Sunday. Rev. Samuel Goudlock preaching the sermon. They marched to the church from the public square with a goat lead in front of the procession, making the occasion more attractive. After the sermon was preached a collection was taken up and the congregation dismissed.

T. L. McMullan, of Hartwell, Ga., father of Mrs. Vickery, of Dahlonega, spent several days in our city last week, accompanied by J. D. Matheson from the same place. It has been some two years since these gentlemen visited our city, both of whom were very much surprised to see the great improvements that have been made here in the course of two years.

It was reported that a big meeting and a foot washing was to take place down at Auraria last Sunday causing a number of our citizens to go down through curiosity, but no feet were washed to their surprise. Had any of them been whipped as much as we were when a boy for not wanting to wash our feet they would not have wanted to pay out fifty cents and rode six miles to see any body's feet washed—not even president McKinleys.

One of Dahlonega's citizens was summoned to attend a justices court held in Dawsonville last Saturday. It was a very important case, being something new and two justices were called upon to sit on the case so there would be no mistake made when the time came to measure out justice. It seems that there were two cases on the docket originating from the manufacture of blockade liquor. A man named Shelton and a Mr. Grizzle had been partners in the business, during which time Shelton was caught by the revenue officers and caused to serve thirty days in prison. Shelton claimed that Grizzle owed him twenty-five gallons of liquor, who refused to pay it and the suit commenced. The other case was where a blockade had borrowed some liquor from another to start up on and he refused to pay it back. Both plaintiffs in the above cases got judgment and about the next thing you know the revenue officers will have all parties connected with it before Judge Newman except Shelton, who has already paid the penalty by serving his sentence in prison.

It is no trouble for good laborers to get work in Dahlonega now.

Our city is being constantly visited by strangers inspecting the mines in and about Dahlonega.

Spring suits were very pleasant yesterday morning when the thermometer registered at 44.

The increased amount of mining here is causing men to flock in from the country, thereby making farm hands scarce.

The Sigma Nu fraternity had their annual picnic at Porter Springs last Monday. It was a lovely day and all who attended enjoyed themselves.

We are glad to state that E. E. Crisson, who has been so dangerously ill with fever is rapidly recovering and will soon be out again if he gets no back set.

A large number of western miners are at work here now while others are coming in and joining them causing the city to present quite a lively appearance after poor hours.

We received a letter from Dr. Graves of Fayetteville, Ga., inquiring about the number of drug stores and physicians in Dahlonega, stating that he had an idea of locating here.

A very prominent business man of Earlinton, Ky., in renewing his subscription to the Nugget last week ended his letter as follows: "I appreciate the Nugget and am always interested in its news columns."

Our merchants have reached the point where they can under sell peddlers. This is business and everybody should trade with their home merchants whether they sell as cheap as they do or not for every cent peddlers receive is carried clear away.

All those who attended the annual meeting of the Consolidated Co., in Toledo, O., last week from Dahlonega have returned, highly delighted with their trip and each well pleased with the annual report made by J. W. Adams, president of the company.

Wm. Pool, of Pickens county, spent a day or two in Dahlonega last week with relatives who are attending the N. G. A. College. Mr. Pool is the gentleman who came so near being killed across the mountain some years ago by the moonshiners while he was a revenue official. He still carries the scars made on that occasion and two or three of his teeth are gone which were knocked out by a pistol or gun in the hands of some mountaineer who didn't want to be molested while making liquor contrary to law.

A gentleman after arriving in Dahlonega the other day said that he was told before starting out that at least four hundred people were living here in tents and it was nearly impossible to get accommodations, causing him to almost decline the trip. It is true that there are no vacant houses and some are living in tents, and at several times hotel accommodations were scarce but no one has yet had to leave Dahlonega hungry or without a place to sleep. Two additional hotels have recently been opened giving room for all who wish to visit the Golden City of the mountains.

According to what night watchman Coffey says we have been criticizing him wrongfully. We said that he was not doing his duty as watchman when eighteen chairs were stolen from the court house without the thief being caught by him if he was at his post, or words to that effect. Mr. Coffey informs us that he has not remained off of his post a single night without being granted a leave of absence by the mayor. So he can't be blamed in this respect. And then in reference to sanitary matters he says he is getting them to obey the orders of the mayor by degrees. So, in this case in the course of time every one will either be forced or persuaded to "come to time" and we won't hear any more of it in a hundred years from to-day.

A little child of Wm. Newberry died last Tuesday in Nimblewill district.

It is a violation of law for cows to run at large at night in Dahlonega now.

Edger McClure, of Dawson county, is clerking for J. H. Moore in Dahlonega.

The hammer and saw are still in motion and the population of Dahlonega keeps on the increase.

C. M. Moore informs us that he will commence preparing to manufacture brick next Monday.

Gentlemen, please don't ask us to put your announcement in the Nugget without the cash in advance.

Mrs. F. L. Reese left last Wednesday for Sparta, Ga., where she goes to spend a couple of weeks with her parents.

H. L. Coffey is no longer night watchman but his services have been retained by the council for special purposes.

Hereafter if you want to put up a building on the public square of Dahlonega it will have to be constructed of brick.

Not only the geese will have to keep off the streets of Dahlonega but the ball and top players. So says the city council.

L. O. Simmons, an old Dahlonega student, after spending a few days in Dahlonega returned to his home at Marble, Ga., last Wednesday.

The amount of dog tax collected in Dahlonega so far this year amounts to \$37.20, being the largest amount that has been collected for years.

The highest street in Dahlonega is the one leading from Mrs. Reese to R. C. Thomsons via, the Graded School house, which has been named Highland Avenue.

Maybe one reason why people at a distant are led to believe that there are no accommodations for visitors in Dahlonega is because none of our hotel men are advertising now.

Capt. W. H. McAfee, who was expected to die a short time ago of pneumonia, is out on the streets now, gaining strength rapidly and will soon commence campaigning for the senate, as he says he is sure to make the race.

Let all our citizens be careful about fire. Near two hundred persons were rendered homeless in the edge of Atlanta the other day by a big conflagration. Should a fire break out in Dahlonega the whole city would be in danger, with no insurance scarcely.

About a week or ten days ago Dock Marlow, residing in Cane Creek district, found two strange mules in his pasture, having forced their way into it. They both had pieces of hickory bark tied to one front foot and seemed to be fatigued and very hungry. At last accounts Mr. Marlow had them in charge waiting for an owner. Quite likely they are stolen property and the parties got scared and left them.

Elsewhere you will see the announcement of J. M. Davis who asks the people of his county to re-elect him. You all know him and you know too how faithful he has been in the discharge of his duty and it is useless to tell you anything more about him, for Judge Estes proclaimed in public at the last term of the court that Mr. Davis was one of the best sheriffs on his circuit.

The city council at its meeting last Wednesday appointed a board of health composed of the following persons: H. D. Gurley, Dr. C. H. Jones, R. H. Baker and B. F. Alderson, who will have an eye to the sanitary condition of the city. Now let each of our citizens co-operate with them and help to make Dahlonega one of the cleanest and healthiest cities in Georgia. A person will be hired by the city to run a scavenger wagon, the expenses of which will be an extra tax on each resident but very nominal.

F. H. Kennedy has been on the sick list for several days.

Blanks for city tax returns have been received at the office of H. D. Gurley.

Fresh cream cheese at J. H. Moores. Also an extra pair of platform and counter scales for sale cheap.

W. P. Price, Jr., has purchased a lot beyond Capt. W. J. Worley's residence and at the meeting of the council this week petitioned them to open a street so as to enable him to get to it.

We are informed that two boys named Tow met the carrier last Monday, being James Gilreath, who carries the mail from Gadsdenville to Choctaw and demanded the mail sack, but they didn't get it and the carrier went on. Upon his return they were in the road again and Mr. Gilreath, with the assistance of a friend arrested the two and carried them to the nearest jail and turned them over to the revenue officers.

We regret to chronicle the death of "Uncle" Sammie Rider which occurred last Wednesday in Dahlonega between twelve and one o'clock, at the residence of his son-in-law Joseph Sparks. Mr. Rider was among Lumpkin county's oldest citizens being about 80 years of age. He had returned only a short while ago from Dawson county where he had been spending some time with relatives down there. Soon after his arrival here he was taken with grip and was too old to recover from this dreadful disease. He was a good, clever, christian hearted gentleman and no doubt is at rest.

Five cows were impounded the first night after the law went into effect preventing cattle from running at large of nights. They belonged to law abiding citizens who were not aware of such a law being in existence as the council gave no notice of the same. Other places they publish ordinances when passed but it is not done here—that is the most important ones are not. The same day the stock law passed among others was one to prevent ball and top playing on the public square. After that some white men, negroes and boys were playing. They were throwing the ball to each other clear across the square, twice it went into B. R. Meaders & Sons store, and once the ball came near hitting a lady. Something was said about the ball ordinance and a councilman told one of the marshals to go and notify them in a quiet, gentlemanly manner. The officers reply was to let them go on until night, and they all played till they got tired and quit. Cows are of more importance than ball playing and we think it would have been nothing but justice for the officers to have been notified to go the owners of these cows in a "quiet, gentlemanly manner and notified them that there was an ordinance against cattle running at large," first.

The city council of Dahlonega held an all day session last Monday and several hours Tuesday, during which time a large number of ordinances were passed that will make a right good size pamphlet, some of which will put a number of our citizens to some inconvenience and deprive many of their hogs, but those who we elected to look after the health and interest of the town have thought it best to do so. It may injure you or I but let us obey the laws of the city, get along in peace and harmony and all will work out right in the end. Among some of the most important ordinances passed, not mentioned elsewhere, are the following: To prohibit hog pens within a mile of the court house. No teams allowed to stand alone on wagons on the streets unless they are unhitched from the vehicle or fastened to a post or rack, and many others which will be known in due time. These two are very important to both citizens of the town and country is why we make special mention of them and no one will have to pay a fine if they will give attention to this note of warning and obey the law.

An Old Idea.

Every day strengthens the belief of eminent physicians that impure blood is the cause of the majority of our diseases. Twenty-five years ago this theory was used as a basis for the formula of Brown's Iron Bitters. The many remarkable cures effected by this famous old household remedy are sufficient to prove that the theory is correct. Brown's Iron Bitters is sold by all dealers.

BEAUTIFUL FALLS.

Seabolt and High Falls—Will furnish the Power to Operate Crown Mountain Gold Mine.

The picture given our readers to day is the Seabolt falls, locally known as the Seabolt Shoals. This picture represents the falls of two branches of the Chestatee river, both of which can and will be thrown into one canal, the work on which is rapidly progressing by a large force of hands. The canal begins at the shoals shown in the first picture and runs on down one mile to High Falls where the water of the same is secured without any dam and carried on for a mile farther to where the electric power is generated, the full length of the canal being just two miles and one chain.

This power includes the head-waters of the Chestatee river and is by far the best natural water power in Lumpkin county. The two streams combined aggregate about 9,000 cubic feet of water per minute, and by a short canal a perpendicular fall of 95 feet is obtained, thus affording without a dam, over fifteen hundred and fifty horse power. The development of this power will bring home to us the wonders of the greatest modern discovery—the transmission of power by a single wire ten miles without appreciable loss. Thirty years ago such a proposition would have been ridiculed and even until quite recently the idea of transmission of power at considerable distance was not seriously entertained. Now power is being transmitted fifty miles with little loss. This renders every water power in Lumpkin county available for developing our immense mineral and other resources.

This Seabolt power has sufficient altitude to be ditched and tubed to the top of Crown Mountain. The cost of this would be enormous, but even if it was done the cost of keeping the ditch and tubes in repair would be so much greater than the mere looking after a single wire that it is no longer a question as to which is the cheapest and most desirable.

The picture gives a very inadequate idea of the beauty of these grand falls. The clear waters bursting from a "boiling and toiling, turning and churning, boiling and finally rolling" down the slope of the Blue Ridge, brings vividly to mind the

SEABOLT FALLS.

HIGH FALLS.

memorable description of something familiar to every old school boy as to how the water comes down a Lodore. But it is not the beauty of the falls and adjacent scenery that interests the public but it is the power that they furnish for practical purposes that strikes the average mind in this utilitarian age.

The present capacity can by dams be doubled, which will in the future be done. When this is done and probably 3,000 horse power developed, three-fourths of which will be "to let" for legitimate mining and other enterprises, the benefits to the country are simply incalculable.

We are informed that the company has application for enough of their surplus power at a moderate rental to more than pay for operating the power for its own use. No man can safely predict the benefits yet to come to man kind from the great electric power.

The barber shops will no longer be opened on Sunday. So says the city council.

A good size frost on the morning of the 11th, but not heavy enough to do any damage.

Judge Tate informs us that the last acts of the legislature have been received at his office and all entitled to them are requested to call for the same.

Capt. F. M. Williams has rented his dwelling in Dahlonega and will move to the country, a short distance from the city. Mr. Hutcheson, of Jackson county will occupy his residence.

Capt. Hall moved his office last week into his new building on Chestatee street and lives in what is known as the Hope house a short distance above the Nugget office.

Bob Porter killed a rattler a few days ago near Porter Springs having twelve rattles and a button. This is the first one of this kind that we have heard of being killed in the county this season.

Dot Gaddis was arrested last Friday by sheriff Davis on a warrant sworn out by a daughter of Wm. Sain charging him with bastardy. Mr. Gaddis says he is innocent and will fight it to the end of the law. He made bond for his appearance at the next term of the Superior Court.

Friday night at the college chapel Prof. Stewart delivered a very instructive stereopticon lecture on astronomy. He explained and illustrated fully the cause of eclipse of the sun so as to make his hearers able to appreciate the eclipse that will take place on the 28th of this month. The eclipse will be total in some places in Georgia but in Dahlonega only 97 per cent. of the sun's disk will be obscured. The eclipse will come on at 6:34 in the morning.

Deputy Collector Henderson and Marshal Grizzle went out into Short Creek district and destroyed a large still but caught no one as the operator was notified by a runner of the officers being in the neighborhood before they reached the distillery. While its destruction was going on someone removed one of the taps to Marshal Grizzle's hack which was left off some distance and threw it away, giving them much trouble in getting the hack to town.

New Discovery.

In the hills 17 miles North of Dahlonega a large vein of quartz which assays to be worth as much as the average ore in the Dahlonega gold field, has been discovered besides numerous other properties. This is an undeveloped section and the property can be bought now at a low figure. For further particulars address

D. L. PITNER,
Dahlonega, Ga.

BEST

Bargains in Town.

THE NUGGET.

DAHLONEGA, MAY 18, 1900.

Entered at the Postoffice at Dahlonega, Ga. P. O. as Second Class Matter.

Ex. Gov. Gordon was re-elected as president of the Southern Baptist Convention which convened at Hot Spring, Ark., last week.

At the last national populist convention at Sioux Falls, S. D., last week Hon. W. J. Bryan was nominated president and Hon. Charles O. Towne for vice-president.

A movement is on foot for the blue and the gray to have a reunion of the survivors who fought in the battle of Peachtree Creek near Atlanta July 19 and 20, 1864.

Bro. McNelly reports that during the hail storm in Walton some days ago, the hail drifted in some places fifteen feet deep, and would require two weeks of warm sunshine to melt it all.

We actually believe that there are a few candidates in this county who are afraid to let the voters know, at present, that they are running. They want to slip up on you. A man who is asking for office and is afraid, or too stingy, to make it known through the county paper that he wants your vote doesn't deserve it.—Blairsville Herald.

Philadelphia Ledger: Supposing each of the persons officially reported to be suffering from famine in India should be given relief to the extent of one cent only per day. It would take \$56,170 to even do this much. This simple computation helps one to realize better, perhaps, than pages of description the terrible extent of the calamity.

A religious clump, of Auston, Texas, declared that the recent destruction of the big levee above the town was the work of the Creator, who did it with the intention to emphasize his displeasure because balloon ascensions had been given from it on Sundays. This clerical fool needs some of the slush washed out of him.—Wiregrass Blade.

The report that cholera is strengthening its deadly hold on famine stricken India brings the pitiable condition of that country more than ever to public view. About 93,500,000 persons, for this is the population of the districts affected, are sweltering in their squalid existences away amid pestilence and misery that show no signs of abating. Hundreds of thousands of pounds in good British gold, good German marks and American Coin have been thrown into the country, but, judging from the latest advices, all the charity is merely a drop in the ocean.

1900 will mark an era of prosperity in the South that has not been even looked for. The enormous amount of capital which has found its way to the southern states during the past week is agreeably surprising. The number of new factories that are to be built, the additions and improvements that are to be made on the old ones and the healthy states of all other manufacturing interest are heralds of prosperity, and Georgia, empire state of them all is coming in for share and is fast gaining recognition as the banner state for solid investment. Hurrah for Georgia.—Cleveland Courier.

A laboring man with his United States rate of wages and the British price of provisions a few hundred years ago would be able to live like a fighting cock. In the time of Henry I. wheat for food for 100 men for one day was worth only 25 cents, while the cost of a sheep was 3 cents. Two pullets were worth 3 cents; a partridge, or two wood-cocks, cost 8 cents; a fat lamb, 12 cents from Christmas to Shrove-tide, and the rest of the year, 8 cents. Parliament fixed the price of provisions in 1813 as follows: \$12 for a fat ox; if fed with corn, \$17.50; a shorn sheep, \$1.25; two dozen eggs, 6 cents. Later on milk sold at three pints for a cent. Beef and pork were worth a cent a pound.

Mining Notes.

J. D. Clark, of Apalachicola, Fla., has been in Dawson county several days taking options on mining property near Barrettsville.

Dr. Cravens, the general manager at the Blar Patch, returned last Friday from a short visit to the north, who will put the ball in motion on a large scale down there right away.

W. A. Dauforth, one of the owners of the Longstreet mine in White county, has returned to his home in the north, leaving Charlie Daniels a, Lumpkin county miner in charge of the work.

R. W. Walker, of the Crescent mine, informs us that after a month's work he has succeeded in getting out the big cave in the cut but will not run the mill any more until the concentrators are put in.

The Advertiser says that owing to the scarcity of water active operation has been suspended at the Barrettsville mine in Dawson county. This was thought by the owners in the near future.

Mr. Peacock, the assayer for the Consolidated Co., is busy all the time, often working of nights. Every new vein discovered is tested soon afterwards so as to see whether it will pay to keep from doing any "dead work."

New machinery is being put in at the Mary Henry mill as rapidly as possible so as to have it in running order at an early date. On the Tabloneka property, belonging to the same company, a place has already been graded off to start a five hundred foot shaft.

We see from the Mining Journal that it says that work has commenced on a dam fifty feet high on the Yahoola river to furnish power to run the Standard Cos. big mill. Nothing has been done towards such a dam yet but will likely commence some time in the near future.

Quite a lot of Nashville gentlemen arrived in Dahlonega yesterday some of whom are already interested in Crown Mountain Gold Mine, and others will likely be soon, as the property shows up well and the yellow metal generally causes all who see it to make an investment.

Arrangements are being made to commence active operation down on the Singleton property belonging to the Standard Co. Many rich veins are already opened up and large bodies of good pay ore in sight causing its owners to wish that their new 120 stamp mill was already completed.

A gentleman from Altoona informed us the other day that mining down there had suspended for awhile on account of the operators being enjoined by the farmers whose lands were being damaged. We scarcely ever have any trouble of that kind up this way.

We will be pleased to publish any news concerning the mines any where in this section if furnished with the same. But want nothing but facts, for we do not wish to be the means of any one spending his money to come here and disappointing him by a false statement. Such as this does more harm than good besides it is just about the same as robbing him of whatever it costs to make the trip.

The big shaft down at the Hand has reached a depth of sixty or seventy feet. The hoister has been received and the pump will be here this week, which will be put into position, rendering them able to proceed with their work much more rapid as well as easier. The grading on the car line from the Hand to the Findley was resumed last week and a large addition of hands are being put to work taking out ore so as to keep the mill supplied. Only a part of the mill had been run up to the first of the week as it requires some time to regulate as big a lot of machinery as they have at this plant, but everything is moving off all right now giving perfect satisfaction to all parties interested and in a few more days the full 120 stamps will be moving.

Mr. Vanderventer, of Knoxville, Tenn., has been here for several prospecting for gold on property which he owns.

As an enquiry was made of us last week by a letter from a gentleman at a distant "when will the chlorination plant of the Consolsolidated be running?" we will state in reply that one of the stockholders informed us that it would be in operation in about two weeks. It couldn't be started when the mill was, for concentrates do not accumulate very fast and it requires some time to get enough to furnish the plant. This plant has been constructed large enough to accommodate both the Hand and Standard mills and probably more.

Persons wishing to mine for gold will find it to their interest to see or write F. S. Packard who owns the Turkey Hill property, advertisement to be seen elsewhere. Mr. Packard has been engaged for months in developing the property and has many valuable veins ready to show to those who may wish to become interested. He is an old merchant and has become accustomed to showing things to customers before selling them and it is the same way by his mine. He is ready to show the gold in the veins so as to make it interesting. You don't need any magnifying glass or assaying done to ascertain that the Turkey Hill is valuable property.

F. S. Packard has just returned from a trip over the mountains and reports important gold discoveries on some parcels of land belonging to him in Fannin county. One vein three feet wide, which he has had traced for a mile and a half being rich in lead assays showing 17 to 20 percent with traces of gold and silver. Also another vein traced by the top rock for over one mile opened at intervals for 900 feet showing a width from two to 4 feet and panning a good color in the top rock the entire length. Below the top rock the ore is in the highest degree refractory sulphides containing an abundance of sulphur. Mr. Packard is jubilant and says the state geologist will have to change his map and run his widest yellow streak through Fannin county.

W. B. Fry, general superintendent of the work at the Seabolt Shoals, belonging to the Crown Mountain Co., while down home Sunday informed us that they worked about 65 hands last week and would add about as many more this week. The work has only been in progress a little over a week but a big change has been made on that end of the line. While this is progressing the dam on the Tan Yard branch is going up, and at the same time Henry Roberts with two or three tubs of water, pan, pick and shovel holds the fort on the top of Crown Mountain making two or three good discoveries every week. The last vein discovered is very rich. He brought in a piece the other day taken from a vein which was nearly all gold weighing eleven or twelve penneweights.

Another democrat in Congress has been ousted and a republican put in his place, being Crawford, of North Carolina whose seat is now occupied in the house by Mr. Pearson.

The democratic primary for congress and state house officers occurred last Tuesday throughout Georgia. But little interest was taken in it in Lumpkin county as there was no opposition to Hon. F. C. Tate nor none of the rest of the ticket and but 33 votes were polled and they were all cast in Dahlonega, Governor Chandler running two behind the ticket and Mr. Stephens one. No other election was held at any other precinct in the county, farmers and laborers being too busy to come out unless there was some opposition. The next day the members of the executive committee who were on hand selected Cols. W. A. Charters and W. S. Huff to represent this county in the gubernatorial convention to be held in Atlanta, and Mr. H. D. Gurley and Mr. Geo. W. Walker, Sr., goes to the congressional convention at Gainesville.

James J. Corbett was whipped last week by James Jeffrey, with whom he trained so long.

Politics are going to get in bad shape in Lumpkin county before the election is over. We hear that one of the members of the county democratic executive committee is going to run for tax receiver independently.

Our occupation of the Philippines has up to date cost the lives of 2,256 Americans and permanently broke down the health of many more. It is not surprising that men should be asking if the game is worth the candle?—Ex.

Hall county is going to have new county officers except Clerk Thomas Bell. R. F. Quillian, an old Dahlonega student will be one of her representatives.

Consumption

is robbed of its terrors by the fact that the best medical authorities state that it is a curable disease; and one of the happy things about it is, that its victims rarely ever lose hope.

You know there are all sorts of secret nostrums advertised to cure consumption. Some make absurd claims. We only say that if taken in time and the laws of health are properly observed.

SCOTT'S EMULSION

will heal the inflammation of the throat and lungs and nourish and strengthen the body so that it can throw off the disease. We have thousands of testimonials where people claim they have been permanently cured of this malady.

See and try it on all druggists, F. C. BOWNE, Chemist, New York.

ANNOUNCEMENTS FOR SHERIFF.

I respectfully announce myself for Sheriff of Lumpkin county subject to the democratic primary to be held August 15th next. J. M. DAVIS.

FOR ORDINARY.

I respectfully announce myself a candidate for Ordinary, subject to the Democratic primary to be held Aug. 15th, next. JOHN HITE.

VALUABLE GOLD

Property in Lumpkin County For Sale.

THE Proprietors of the Turkey Hill Gold Mines confidently recommend the above property as equal as a gold mining proposition to any in the state. Do not listen to parties interested in other properties but call at the mine 4 miles south of Dahlonega and investigate for yourself.

MOORE & BROTHER, Prop'rs.

Good Turnouts at Reasonable Rates at All Hours, Prompt and Quick Service,

THE NUGGET.

DAHLONEGA, MAY 18, 1900.

'Big May' meetings are all the go now.

Our list of subscribers for May is growing almost as fast as a hop vine.

There were services at the Baptist and Methodist churches last Sunday, both very well attended.

Col. Z. B. Hargrove, of Waycross writes us that he expects soon to become a citizen of Lumpkin county.

Tax receiver Stargel is now making his last round. He will be in Dahlonega May 28th, 29th and 30th, which winds up his trips for the present year.

The junior editor of the Signal went down to Gainesville last week in the interest of his paper which we suppose will come out this week well filled with nice pretty ads.

It was reported that a foot washing would take place out at Macedonia last Sunday and several were to be present, but it was postponed until some time in June and they all came back disappointed.

It is a hard matter for a man to put on two faces without being caught up with sooner or later. A certain person pretending to be a friend to us is making a move to injure the Nugget simply because it is no certain man or cliques mouth piece.

Col. Charters went down the other day to Gainesville and presided in a case where Judge Estes was disqualified. Who knows but what the Colonel will get a permanent seat on the bench some day? He would make a good judge and we would be pleased to see it.

Commencement will soon be here after which the students will all leave us for some three months and others will never return any more except maybe on a visit as they will have completed their education then and start out into the world to engage in different vocations of life. We always regret to see them leave.

We have not seen the application for the charter of the railroad proposed to be built from Stone Mountain to Dahlonega in any other paper along the line except the Signal. The projectors, some of whom are able to buy us country editors if we were gold, failing to make a little outlay of money for the advertising fee to each editor in the county through which it passes, wanting them to do it for nothing, will cause a delay.

One old gander found it way into the pound the other day since some have been living under the goose law. All our citizens don't live under the goose administration. The "dead line" runs down the street by the Masonic hall and McGuire's. The city fathers should have given the entire town from one end to the other the benefits of this important (?) law. As it is all the councilmen except one live inside of the limits while us people on the outskirts are left at the mercy of these fowls. Oh, what a horrible position we are in.

Mr. Benedict, a printer who recently worked at the business in Altoona, Ga., arrived in our city a few days ago, hoping to be able to lease the Signal, probably having some encouragement by a few belonging to the dissatisfied faction who can't be pleased with a paper unless its editor will sneeze every time they take a dip of snuff, and give only such news as suits their tastes. We don't know whether Mr. Benedict would answer this purpose and be a tool in their hands or not as he is a perfect stranger to us. However, we never mind the weather so the wind don't blow. So if you want ten dollars worth of news for one hundred cents, send it in and get the Nugget twelve months.

Don't forget to return your city taxes. The time is short and they will soon begin to need some money.

R. C. Meaders, after going to Milledgeville last week went on down to Swainsboro and spent several days with relatives.

Assistant postmaster Price went down to Gainesville last Friday and purchased a beautiful pair of "calico" horses from Mr. Baflington.

If you wish to enjoy the summer where the sun is not so severe and the nights cool and pleasant come to Dahlonega, the garden spot of the mountains.

G. D. Bruce informs us that he will close out his gallery here on the 15th of June. Those desiring picture should call at once while the opportunity is offered.

What's the matter with Bro. Bell of the Wiregrass Blade? The copy received at this office last week was addressed to "Miss Daisy Nugget." It came direct through without any delay.

Quite likely a number of northern visitors will spend much of the summer in Dahlonega. Ample arrangements are being made to accommodate all who may wish to come.

Time and again parties loving the fatted sheep have visited this county and bought up all they could get and carried them off which will cause mutton to be scarce here for some time to come.

See program of Graded School entertainment on 4th page of this issue, which takes place at the college chapel Monday evening May 21st. Admittance: Adults 25; children 15. Free to all pupils of the Graded School now in attendance.

Saturday night it is said that two blockaders were seen carrying a two gallon jug down in the direction of Mechanicville to deliver to parties having already engaged it. The occasion is said to have resembled parties going to a lynch mob more than anything else. A great crowd followed behind with money in their outstretched hands begging for some of the juice, but not a bit could they get and all turned back in despair. It was certainly a trying time on them as the shade of the jug in the road caused from the bright moon peeping down from above, increased their appetite.

The doors of Hall's Villa were thrown open last Friday for the first time to guests under its new management, supplied with nice new furniture and up to date in every respect. The best cooks that could be secured in the north are employed so as to enable the victuals to be prepared to suit the tastes of the many visitors who will be here frequently from that section. The house is in charge of Mr. France, also a northern gentleman, who fully understands the wants of his guests and does everything he can to make his guests comfortable, acting in such a manner as to cause every one he meets to like him. Such clever people are always heartily welcomed to Dahlonega. The first guests name on the new register is W. J. Worden, of Chicago, who is a stockholder of the Consolidated Co., and came in soon after the hotel opened. Mr. Worden is connected with the newspaper business recently started up in the interest of the republican party, but when he visits Dahlonega he talks gold and leaves off politics. This gentleman was joined in a few hours by the following guests: F. R. Adams, J. G. Rosenthal, L. F. Cueser, of Delaware, O. On the next day by J. Felber and wife, Louis Siebert and wife, C. H. Linderbert and wife, W. M. Fisher and wife, and Miss Martha Matheny and C. H. Linderbert, of Columbus, Ohio. Then on Monday G. H. Breyman and wife, Mrs. J. N. Reed, of Toledo; J. W. Adams, of Chattanooga, arrived, all being interested in the Consolidated and Standard mines.

F. G. Thomson and wife, of Toledo, O., came in Monday and spent several days with relatives in Dahlonega this week.

Sent in \$1.00 and get the Nugget twelve months every week, promptly rain or shine, hot or cold, matters not who comes nor goes, the Nugget will be there.

Among the names of visitors on the Hall House register this week are C. A. Nix, of Madison, Ga., and J. F. Vickery, of Pennsylvania. Mr. Nix used to run the hotel at Tallulah Falls, Ga., and for four years had charge of the Anniston Inn, Alabama.

A lad by the name of Goss, who resided in White county, lost his life while bathing in the Chestnut river last Sunday. He had been at work on the Crown Mountain canal and had gone to swim in a place known as the "Black Hole" in Jack Ash's field with some of the sons of the owner of the plantation at about three o'clock. The "Black Hole" is very deep and when the water reaches the place it goes round and round, making it very difficult and dangerous to swim in. The boy got strangled, went down and lost his life and was not found for some hours afterwards. Let this be a warning to all boys who go into deep water.

The city council met last Monday and after hearing a report of the board of health read made a move to begin active work and hire a man to run a scavenger wagon, get the city in a clean, healthy condition and keep it so. This move on the part of the city council will be hailed with joy by every resident who has the interest of the city at heart. It will cost our citizens something extra but it is better for each to pay a nominal sum for this purpose than to get sick and have to settle a big doctor bill caused from filth or maybe die. There are none of us willing and but few of us ready just now to be called to that great judgment bar. This wagon will be secured at once. The streets will be cleaned up and each merchant will be compelled to put his trash in a box and have it ready when the wagon comes round. No slops will be allowed to be poured out or run out on the streets or even put on the premises. The fee to be paid by owners or those using the water closets, is as follows per month to wit: Hotels each \$1.00, boarding houses each 50 cents, private houses 25 cents, college \$1.00, dormitory \$1.00, public school \$1.00. Where a renter fails or refuses to meet any of these requirements a fine of \$1.00 is issued and the amount collected out of the owner of the property.

Again we were written to last week enquiring about the prospects of Dahlonega getting a railroad. We think it is good. Capitalists who are interested say we must have a road. They have traded for all the iron lands to be had in this county and still continue securing other property that is perfectly useless without a railroad. They are men who mean business and would not make such an outlay of money if they didn't see where it would benefit them. Though it might be well enough to say right here that everything depends upon the success of the Consolidated Co's big plant. One of the company informed us this week that they had at one time the money in the Gainesville bank to build the railroad from that city but decided to wait until the mill started. If it is a success the road will be built right away and if it is not it will be a long time before Dahlonega gets a railroad. Now these are facts. But we all have the utmost confidence in the big plant because the company made a thorough investigation before investing their money—every vein discovered being tested by assayers both far and near, in almost every instance finding them good. The gold is here, the mill runs well, the machinery is calculated to save 95 per cent of the yellow metal and we believe the railroad will be built.

It is getting dry and dusty now. The price of blank paper still continues to advance but the Nugget is yet \$1.50 per annum.

T. F. Jackson is going to purchase him a lot down on Park street and build a nice comfortable residence.

A lodge of Knights of Pythias was instituted in Dahlonega last night by Mr. White, District S. C., and twelve other members of the same secret order from Gainesville.

Dr. Cravens, who is now located at Auraria engaged in mining, was in Dahlonega last Monday and reported the plates at the Austin as showing up well.

Our farmers are getting in full time now and we hope that they will produce enough this season to supply the demand without the money having to be sent off to the west for produce.

Many of the northern ladies who visited Dahlonega this week were here for the first time, all of whom were well pleased with the gold mines and our beautiful mountain scenery.

Our old friend Rice Arendale, of Auraria, has been sick for a number of weeks. He is getting old and feeble but we hope that he will yet recover and live for many years to come.

Remember the public school library entertainment at the college chapel next Monday night. The exercises will begin at 8 o'clock. Tickets are on sale at C. H. Jones's, J. F. Moore's, H. D. Gurley's and elsewhere.

Some of the ladies have been going around this week in Dahlonega getting up money to send to the India sufferers, receiving quite a liberal donation from many for these poor unfortunate sufferers who are starving to death in a foreign country.

Julie Townsend, who made her escape while a "trusty" in the jail several months ago, was re-arrested by Sheriff Davis last Monday, and kept in jail until the fine imposed by Judge Estes was settled in full.

Mr. Siebert, who came down from the north to spend several days in Dahlonega in company with his wife, we regret to say received a telegram that the mother of Mrs. Siebert was very sick, calling them home much earlier than they expected.

Mr. Whorton, of the Calhoun mine spent a day or two in Dahlonega this week. It is useless to say that Mr. Whorton is making money for the Calhoun is a good mine and it is nothing unusual for them to pick up a number of fine nuggets every week.

The Dahlonega Hotel, in charge of J. F. Castleberry, and Hall's Villa, run by Mr. France, both have been presenting a lively appearance this week by a large number of visitors which causes old Dahlonega to have the good wide awake times of many years ago when gold was first discovered in this county.

J. F. Castleberry has had the Burnside House, now called Dahlonega Hotel, in charge and occupied by boarders, while he held the fort over at the Hall House. He is now fixing to vacate the Hall House and has been engaged for several days this week in removing his furniture to the Dahlonega Hotel, where he will permanently locate and still continue to take care of the weary traveler who wish to come his way.

A gentleman, of Rock Creek, Texas, in renewing his subscription this week to the Nugget, concludes with the following words: "Continue to send the paper to my wife. My wife and her father think the Nugget is the only paper and say they can't do without it." This kind of good news comes in almost daily from every source which is very encouraging to us to feel that we are filling the wants of hundreds of people both far and near.

A big crowd of visitors is expected in Dahlonega during the commencement exercises of the N. G. A. College.

The big hotel on the Bassenger lot belonging to the Consolidated Co. is receiving attention from the painters which makes it look very nice.

Geo. Teal of this county was arrested first of this week by Sheriff Davis on a warrant sent him from Banks charging him with misdemeanor.

Rev. J. A. Wynne, a very prominent Baptist divine of Gainesville will preach the commencement sermon of the N. G. A. College which takes place on the first Sunday in June.

Mr. Wm. Jones of Chestate district was wedded to Miss Marion Caldwell, daughter of Rev. D. W. Caldwell, of the same section on Sunday last. Now the happy couple should subscribe for the Nugget and start out in life right.

G. W. Breyman, vice-president of the Consolidated and Standard Mining Co's, spent several days in Dahlonega this week. Mr. Breyman says that he enjoys being here in the spring and summer on account of our cool winds and pleasant climate in the warm season. He also stated that he felt confident that in five years the population of Dahlonega would increase to at least ten thousand if the Consolidated plant is a success and he had every reason to believe it would be.

New broad streets are being graded over on the Free Jim lot in the eastern part of Dahlonega by the Consolidated Co. The sidewalks will be eight feet wide. Many new cottages will be built so as to accommodate a large number of laborers and their families. The streets will be lit up by electricity, the street cars will pass through the town causing it to have new life and present the appearance of a city. This is not mere guessing as a great deal of the work is going on now and arrangements are being made to put up the houses as soon as the lumber can be procured.

A difficulty arose between Drew Anderson, a son of Dock Anderson, and a negro from Ball Ground named Arthur Lighter, down at the Hand mine last Monday afternoon which like to have been a serious affair. They were just beginning their night work when a jower commenced about the car they were using. The negro gave the white man or boy the God d—n liar, and when he stooped down it is supposed to get a rock the negro struck him a heavy blow with the back of his shovel on the right side of the head and took to his heels, leaving the young man on the ground supposed at first to be in a dying condition, who was brought to the city and carried to the residence of merchant Joe McGees and was unable to utter a word for two hours and a half. Dr. Jones was sent for who examined the wound and pronounced it a serious case but believed that Drew would recover if he lived until morning. He rallied a little before morning and is getting along now better than was expected as he was first reported that his skull was crushed in the thickness of a cedar pencil. The news of the occurrence spread like wild fire and every white man on the works nearly started out in every direction with guns and pistols and no doubt there would have been one negro less had some of those in search found him. Frank Jones and Mr. Vandiyer got the course the negro went and at a late hour he was found by them in bed at a negro man's house named Tom Prewitts, some four or five miles from Dahlonega in the south western part of the county and brought back and lodged in jail. He was very uneasy and asked his captors not to let him be lynched. The negro will have a commitment trial as soon as further developments are made in the condition of the young man.

The trustees have ordered a new flag for the cadets.

The white laborers at the Hand have asked that the whites and blacks be separated.

Mr. Grif Evans is thinking of making the race for ordinary on the independent ticket.

Later reports come in that much of the corn, peas and beans near the mountains were killed by the frost last week.

Those wanting brick are requested to send in their orders at once. First come, first served.

C. M. Moore.

Quite a lot of wild lands located in different parts of the county will be sold by the sheriff on the first Tuesday in next month for non payment of taxes.

The Gurley Drug Co. are selling more drugs and medicines than any other house in town because they are satisfied with a small profit. Quick sales and short profits is their motto.

Your attention is directed to the advertisement of the Hammar Paint Co., to be found in this issue. This excellent brand of paint is kept by The Gurley Drug Co., and is the best and cheapest paint in Dahlonega.

Hughes Anderson fell from a scaffold at the new hotel of the Consolidated Co. last Wednesday morning and was considerably injured, but we hope, however, that his injuries are not serious and that he will be able to be at his post again soon.

The ord'nance of putting up the cattle at night is working a hardship on some whose cows will lie out late when grass comes. We notice that a councilman cow preferred to be free Tuesday night and remained out but was not discovered by either of the marshals. This law was tried a little while some years ago but was soon repealed.

Best clothing and best prices in town at Anderson & Jones. Also a hot line of hot clothing, besides they guarantee better prices than anybody. See? "A thing of beauty is a joy forever," and if you don't want any ready made clothing go and see their \$20.00, \$25.00 and \$37.00 machines. New Royal sewing machines are all the above implies.

Every 15th when the Consolidated Co. pays off their hands, an old professional beggar, carrying a crutch comes up and hangs around the store and mines until he has become a perfect nuisance. He says that he resides in Pickens county where they have a place provided for the needy who are unable to work but states that he doesn't want to go to the poor house. The people of Lumpkin county have about as much as they can do to look after their own paupers without taking in those of any other county.

PROGRAM.

Commencement Exercises of N. G. A. College.

Saturday June 2, 8.15 p. m. B Class Declaration.
Sunday June 3, 11.00 a. m. Sermon by Rev. J. A. Wynne.
Sunday June 3, 8.00 p. m. Sermon by Rev. J. A. Wynne.
Monday June 4, 9.30 a. m. A Class Declaration.
Monday June 4, 11.30 a. m. Address by Hon. Hoke Smith.
Monday June 4, 5.00 p. m. Sham Battle.
Monday June 4, 8.15 p. m. Freshman Declaration.
Tuesday June 5, 9.30 a. m. Champion Debate.
Tuesday June 5, 4.30 p. m. Inspection and Prize Drill.
Tuesday June 5, 8.15 p. m. Corona Society Entertainment.
Wednesday June 6, 9.30 a. m. Soph. and Junior Exercises.
Wednesday June 6, 5.00 p. m. Reunion of Old Students and Alumni.
Wednesday June 6, 8.15 p. m. Senior Orations. Baccalaureate Address.
Delivery of Diplomas and Meadals.

The Dahlonega Nugget.

mr 30 Hall Mde Co.

An Old Idea.
Every day strengthens the belief of eminent
physicians that impure blood is the
cause of the majority of our diseases.
Twenty-five years ago this theory was used
as a basis for the formula of Brown's Iron
Bitters. The many remarkable cures effected
by this famous old household remedy are
sufficient to prove that the theory is correct.
Brown's Iron Bitters is sold by all dealers.

You can get visiting cards either
blank or printed at the NUGGET
office so cheap that you can go to
see every body in style.

Those wanting brick are request-
ed to send in their orders at once.
First come, first served.

C. M. MOORE.

Capt. F. M. Williams has a
Senatorial bee in his cap we believe
and it is quite likely that he will
ask the people of White, Lumpkin
and Dawson to send him to the
Senate.

Councilman Reese and McGuire
and Marshal Anderson went out
fishing last Friday, but being so
many officers in the crowd the
finny tribe seemed afraid to take
hold of the bait and they didn't get
but one.

The potato bugs have com-
pletely destroyed some of our citi-
zens crop of Irish potatoes. The
only way to get rid of them is to
put some poison into water and
sprinkle the tops, but it will also
kill your chickens if they use in
the garden.

Fulton Williams, who is a can-
didate for sheriff in Union county,
was over last week getting him a
campaign suit. A campaign suit
consists of knee breeches and a
long swallow tailed coat with two
big pockets so as to hold a quart
bottle each, enabling a person
wearing them to make a fast run
without any danger of being in-
jured by snakes.

A party wrote us the other day
to send him the NUGGET six months
and he would pay us when the
time expired. If he never reads
any more until he gets the NUGGET
on this condition he will never
need another line. We have to
pay cash in advance for paper and
other materials besides the office
force needs something to go upon.
They cannot wait for their pay six
months.

Col. J. H. Moore, who was
spending some two or three weeks
in Nashville returned for a couple
of days last week with some of his
friends who wished to see the gold
mines. The object of the Colonels
visit to Nashville was to have his
eyes examined the sight of which
were failing. We are glad to state
that they are improving and he can
see a fine particle of gold almost as
good now as he ever did.

According to the program pub-
lished as given out by the astron-
omers a total eclipse of the sun will
occur next Monday in Louisiana,
Mississippi, Alabama, Georgia,
South Carolina and North Carolina.
The naval observatory will send out
two expeditions. They will be
located in North Carolina and
Georgia, 200 miles apart. If there
is no mistake, like the falling of
the stars, it will be a wonderful
sight the like which none of us
will ever see again. Some people
from the north will be down to
Dahlonega in due time to see it.

Henry Johnson of White county,
was badly injured while at work
down at the Hand mine on Thurs-
day afternoon of last week. He
was lifting a heavy piece of tim-
ber with a rope, which broke and
he fell about twenty-five or thirty
feet on some timbers of a bank,
breaking one of his legs and other-
wise injuring him. Physicians
were telephoned for and it was not
long before Drs. Welch and
Jones were on the spot giving the
suffering man proper attention,
which they will continue as long
as is necessary at the expense of the
company, for the managers of the
Consolidated never let a laborer
who is hurt at their mines, be
neglected.

The Cape Nome Gold Fields.

The interest in the new gold fields
is so great at the present time that
a really authoritative account of
the conditions which exists there,
such as is furnished by Consul
Smith of Victoria, will be welcom-
ed. He wrote under date of De-
cember 21, 1899, and stated that
there was every indication that
there would be a great rush to
Cape Nome the present spring.
The distance from Victoria to Cape
Nome is 2,500 miles and is per-
formed entirely by water. Trans-
portation companies have booked
large numbers of passengers, and
it has been computed that 65,000
persons desire to go to Cape Nome
as soon as possible. A number of
returning miners called at the
Consulate at Victoria and exhib-
ited specimens of gold saying they
were dug on the beach near the
water's edge. Men with only hand
shovels, and the simplest and rus-
tiest of pans, cleared from \$50 to
\$100 and even \$800 per day, and
sometimes a "clean up from \$1,000
to \$1,500 has been reported.

Nuggets worth \$900 to \$400
were found near Anvil Creek, and
it is believed that between \$900,000
to \$400,000 was taken out of
Snow Gulch last summer. One
man, it is said, took \$190,000, while
another claims still more than
that. According to their
statements the gold does not ex-
tend to a great depth, 5 or 6 feet
being as low as any have yet found
"paying dirt." By the decision of
Commissioner Hermann no land
below ordinary high tide can be
disposed of to individuals or cor-
porations, but is open to the pub-
lic to operate on; the right to dig
in these lands is as free as the right
to fish in the adjacent water, so
anybody may wash gold out of the
sand between high and low water.
Anxiety is expressed regarding
the establishment of a port of en-
try at Cape Nome. Captains all
agree that there is practically no
anchorage or harbor at the cape
itself, but at Port Clarence, distant
only a few miles, there is a safe
commodious harbor. The market
quotations for provision are very
high, best selling from 75 cents to
\$1 per pound; flour \$10 a hundred-
weight; butter, \$1 a pound; coal,
\$75 a ton, and lumber, \$250 per
thousand feet. The ruling prices
of the restaurants are extremely
high, a steak with coffee, bread,
cheese and pie would be about \$5.
An ordinary two story dwelling of
eight rooms rents for \$200 a month;
for the delivery of heavy freight,
by horse team and wagon, \$10 per
hour is charged; the price of a
shave is \$1, and it costs the same
amount to have a white shirt laun-
dered. Longshoremen have been
paid \$2 an hour for their labor,
and carpenters receive \$1.50 an
hour. From these figures it will
be seen that while it may be com-
paratively easy to obtain consider-
able quantities of gold, that the
mere cost of staying at Cape Nome
is enormous. Probably with an
increased number of steamers the
prices may be decreased.—Scientific
American.

"Uncle" Dick Smith, who came
here from Gainesville and located
recently, has been working on a
house in sight of the NUGGET office
several days who gets about as liv-
ely as a lad of sixteen, although his
head has grown white from many
summers. Not knowing you would
think that he was either unmarried
or expecting to apply for a divorce.
Such energetic mechanics as Un-
cle Dick will always find employ-
ment.

How Luck Runs in Alaska.

"At first sight it would seem that
the like good luck might fall to any
man, but the reality runs much the
other way. The man of quick in-
telligence, of judgement and decision
is not the man who ordinarily
achieves this sudden wealth. It is
the man who is too stupid to know
the risks he is taking, and it is the
reckless man who plunges wildly
and misses no desperate chance,
who seem favorites the god of
chance. Nor do all good luck sto-
ries have pleasant endings. Often
after the "pile" is made, accident,
disease or death steps in to prevent
its legitimate enjoyment. One man
dropped dead when at the weighing
of the first clean-up he found him-
self a rich man. There was some-
thing wrong with his heart. He
had the physical strength to make
the fight against bad food and wa-
ter, to endure the back-breaking
toil of development and working
out, and all the strain of the un-
certainty that went before. The
supreme moment of success was
more than he could stand, and the
use of the gold passed from him
with its acquirement. A certain
James Mead lay down with typhoid
fever in an outlying camp just as
he was starting for home with the
accumulations of the year, and he
and his bag of dust entered Dawson
together on a litter. It took six
men to bring him in—alternating
four to carry and two to rest—and
he paid each man \$15 a day. Once
in Dawson Mead seemed to grow
better, and when his sailing day
came he walked to the boat. He
reached the wharf and fell dead as
he was about to go aboard."—Ain-
slee's Magazine.

The refreshing showers we have
lately had causes the farmers and
gardeners to look much happier.

Site of a Ohio, City of Toledo, ss.
Lucas County.
Frank J. Cheney makes oath that
he is the senior partner of the firm of
F. J. Cheney & Co., doing business
in the City of Toledo, County and
State aforesaid, and that said firm
will pay the sum of One Hundred
dollars for each and every case of
Cataract that cannot be cured by the
use of Hall's Cataract Cure.

FRANK J. CHENEY.
Sworn to before me and subscribed
in my presence, this 6th day of De-
cember, A. D. 1886.

A. W. GLEASON,
Notary Public.

Hall's Cataract Cure is taken in-
ternally and acts directly on the
blood and mucous surfaces of the

vices of Miss Alice Whelchel for the
present year. Come and examine
goods and prices.

Mrs. E. W. STRICKLAND,
**SHERIFF SALES OF WILD
LANDS.**

Will be sold before the court
house door in the town of Dahlonega,
between the legal hours of sale,
on the first Tuesday in June, 1900,
the following lots of land in Lump-
kin county, to satisfy various f. f. as-
sessed for said county, for taxes of unre-
turned wild lands for the years
1897, 1898 and 1899, to-wit:

15th District and 1st Section:
Nos. 25, 30, 67, 92, 172, 226,
230, 261, 341, 381, 474,
18th District and 1st Section north
half:

Nos. 584,
12th District and 1st Section:
Nos. 5, 15, 37, 167, 234, 278,
307, 341, 345, 346, 350, 507, 573,
593, 729, 838, 894, 908, 909, 1113,
1207, 1209, 1214, 1223.

11th District and 1st Section:
Nos. 101, 262, 314, 329,
388, 457, 458, 505, 597, 601, 612,
619, 703, 783, 814, 850, 851, 852,
803, 1000, 1009, 1068, 1115
1116, 1282, 1290.

5th District and 1st Section:
Nos. 97, 221, 257, 1100, 4521
461, 525, 631, 851, 1058, 10561
JAMES M. DAVIS, Sh'f.

Cold in head and sore throat cured by Kop-
mott's Chocolate Laxative Quinine. As easy to
take as candy. "Children cry for them."

THE NUGGET.

DAHLONEGA, MAY 25, 1900.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

A little ten-year old daughter of Mr. and Mrs. T. F. Vincent, of Athens, Ga., killed herself the other day eating green peaches.

At a republican meeting in Gainesville last week they endorsed the populist platform of the state and agreed to support their ticket.

The Cleveland Courier has changed hands again. It is now in the possession of Rev. Chas. W. Curry, a minister who has recently located at that place.

The appointing of the negro census enumerators down in lower Georgia is going to cause trouble and quite likely end in the killing of the enumerators.

Cleveland, Ga., will soon be in connection by wire with Cornelia, Clarksville, Gainesville and Atlanta. So says the Courier. Hurrah for Cleveland.

One of the candidates called to see a voter last week, but was informed by his wife that he was out in the field and not in a very good humor. When questioned as to the cause she told him that the yard dog had barked himself to death at the candidates and her husband had gone off to bury him. —Sandersville Progress.

For some weeks Miss Lizzie Hackman, of Ocilla, suffered with a severe pain in her head. At times it became almost unbearable. One day recently some sweet oil was poured into her ear and the ear stopped with cotton. In a few moments the cotton was pushed out, and was followed by an ear wig nearly two inches long.—Ocilla Dispatch.

There seems to be trouble ahead of the negro census enumerators in Georgia. Says the Gibson Record: "The colored census enumerators are causing some trouble in some sections of the country now. It looks pretty tough to see one of them to go into your home and you are forced to give him your census. The enumerator in Columbia county is likely to resign or trouble may arise."

You will have to be careful what you drink water out of as will be seen from the following paragraph in the Acworth Post of last week: A young man of the town got out of his buggy at a certain spring to get a drink of water the other day, and finding an oyster can near by, and being quite thirsty, he soured it in the water and hurriedly swallowed the contents. After examination he found that the can was half full of fish bait. It is useless to say what became of the water which he had so hastily drank.

There is in Wilmington, Del., a young man who is tired of his face, and is willing to expend \$250 and undergo any necessary amount of pain in order to secure a new one. There isn't anything the matter with the face except that it bears a resemblance to another person who is intensely disliked by the owner of it and his mother. The face, according to its owner, is a close counterpart of the face of his mother's stepfather, who cruelly mistreated her when she was a little girl. Every time his mother looks at him she is reminded of the cruel stepfather, and every time the young man himself looks into a mirror he feels a strong resentment towards the face that looks back at him. He went to Philadelphia the other day and endeavored to persuade a surgeon to remodel the face for him, expressing perfect willingness to accept cheerfully any style of beauty, or even of ugliness, which the doctor might be successful in evolving from the old face. The doctor declined. If the young man is really in earnest, let him tickle the hind legs of a mule with a short switch, and he will soon have a changed face.—Marietta Journal.

Mining Notes.

One of the most interesting mining conventions ever held will take place at Milwaukee, Wis., on the 16th of June. Lumpkin county will quite likely be represented.

A large force of hands are engaged now in grading the site for the Standard Co's big 120 stamp mill and every thing presents a business like appearance down that way.

The pipes are being put in to the tunnels down at the Hand mine and it won't be long until the compressed air drills will be in operation in all the tunnels as well as in the shaft. These are great labor saving machines besides enabling them to work a great deal faster with all ease.

The prospectus gotten out by the Standard Gold Mining Co. is a beauty and contains much interesting information. The various mining views from photographs taken at different places on their property are very pretty and attractive, giving a splendid idea to those not acquainted here the many advantages we have in mining in Lumpkin county.

The miners are now having good weather for their business and many prospectors are at work all along the gold belt, opening up veins both large and small that are very good, and we expect to hear of more new mills being built in Lumpkin and some of the adjoining counties this year. Really mining has just commenced in this section judging from present appearances.

It having been reported that a 50 mile ditch would be cut to convey a certain stream in Union county to the Standard mine near Dahlonega we enquired of the general manager of this mine last week if it was so, whose reply was that he had never heard of any such a ditch in Lumpkin county. There is one been mapped out from Union which is about twenty-five miles long but they have not even decided about cutting it yet.

The hum and bustle of the machinery down at the Hand mine is certainly pleasing to the eye, especially when the mill runs so well and the plates exposing the gold nicely so early after the mill has commenced operation. We hope that this great mill will pay handsome dividends as much depends upon the success of the plant. If it does well Dahlonega population will soon reach away up into the thousands and if it is a failure the place will soon drop back into the same old rut and be nothing more than a little mountain town.

Surveyors left out first of the week for Union county to survey a ditch to convey the water of several of the streams over there to the Standard and Consolidated gold mines—the rights of ways having already been secured we understand. The ditch will run round Cedar Mountain and cross what is known as Stonepile Gap near Porter Springs and run the water down to where it is desired. Some distance above Dahlonega it will fork and one ditch will convey a portion of the water in to the Hand canal so as to increase its strength should it become necessary during the dry season.

Last Friday when S. M. Wharten went to renew his subscription to the NUGGET he pulled from his pocket a gold brick and asked us if we would take it for the paper. Mr. Wharten is the owner of the celebrated Calhoun mine, on which the first gold discovered in Lumpkin county was found. The gold in this brick was made on the Calhoun by Mr. Wharten and is valued at \$100. It is certainly a beauty and regular eye opener. Besides this he had two pretty nuggets—one weighing something over eight pennyweights and the other five, and two phials containing hundreds of smaller pieces of all shapes and sizes, all taken from the Calhoun where this gentleman has been operating a deposit mine with good results for many months.

Everything will soon be ready at tee Hand to convey the ore to the mill in electric cars.

Timbers are already being gotten for another big shaft down at the Hand which will be started soon a short distance this side of the mill.

W. L. Loveland, of Chicago, has been here this week looking about with a view, it is said, of putting in a bid for the machinery for the Standard Co's big stamp mill. Other gentlemen have been here recently for the same purpose.

After a suspension of three weeks Birch Bros. boat commenced operation again last Monday. This was done so as to enable them to put in some new machinery and adjust and rub up a portion of the old, and in a short while the boat will be lit up by electricity and work will be carried on there both day and night. The bright lights would have been shining now had there not been a delay in getting in some of the electrical machinery. Cities and towns are lit up by electricity but it is a rare thing to see electric lights on a boat, more especially one which is used for mining purposes, and the first night the button is pressed no doubt hundreds of people will be on the bank of the Chestatee river to see this wonderful sight.

The manager of Crown Mountain Co. is moving things as fast as labor can perform the work, although taking great care to do it in a judicious manner. The hands on the canal average about 125. It is an eight foot canal, four feet at the lower side, which will carry the water from the Seabolt Falls two miles below to where it is desired. A saw mill has been put up on the property so as to furnish all the lumber necessary for flumes, tubings, etc. A force of surveyors and other parties were started to work last Wednesday on the line from the power house to the plant measuring distance, taking rights of ways and contracting for posts. And at the same time a good force is at work down here on the dam making splendid headway.

You who have dates on your papers watch when your time expires and renew at once if you wish the NUGGET to continue visiting your premises. The figures date back from the time you subscribed or renewed, then bear in mind what you paid and see yourself when it expires.

A Wholesale Killing Near Cordele.

Judge Z. A. Littlejohn spent a short time in Macon yesterday afternoon and gave the following account of a bloody tragedy near Cordele:

Yesterday morning about 11:30 a Mr. Gleton rode out to the home of his sweetheart, a Miss Raines, about eight miles from Cordele, and was accompanied by a friend, intending to have a wedding. When they arrived at the home of the young lady she joined them, but her father interfered and tried to induce her not to leave him. One word brought on another, and finally a quarrel was on. The young lady's brother rushed up with his pistol and began to shoot at Gleton and Gleton's friend. Gleton drew his pistol and shot the young lady's father, killing him instantly. He then shot the brother. By this time a friend of the Raines family rushed up and tried to stop the trouble, and was himself shot down.

Gleton then drove away, returning to his home, and the young lady went into her house.

Since then the brother has died. The friend of the Raines family is believed to be mortally wounded, and the friend of Gleton is in a critical condition. The situation at last reports was as follows: The young lady's brother and father are dead and the friends of the opposing parties are expected to die.

The initials of the parties could not be given. They were all planters, and are prominent in their communities. The killing caused a profound sensation and threw the entire county into a state of mourning.—Telegraph.

There are several persons in Lumpkin county wanting to occupy the 32nd Senatorial District chair.

The state senators thus far number 28, and ten of them are for prohibition and eighteen of them anti-prohibition.

Little John Walden says he has an idea of making the race for tax collector of this county subject to the democratic primary. Keep an eye out for his announcement as it will appear soon.

In the discussion of the race problem there is nowhere any disposition to oppress or humiliate the negro. On the contrary, there is the most kindly feeling between the two races which cannot be got rid of. They are bound to crop out under certain conditions. The purpose is to find a way in which the races can get along together with the least trouble and at the same time be prosperous.—Savannah News.

Editor Hanlon steps on the method of electing judges and solicitors in this wise: "The Dispatch hereby and hereon utters its unqualified disapproval of the law relative to the election of judges and solicitors by the people. No more unwise or hurtful law has ever been, in our opinion, put in force in Georgia. It is bad in the abstract and bad in the concrete—it is hurtful through and through and all around, and the people are already disgusted with it."

Does the Baby Thrive

If not, something must be wrong with its food. If the mother's milk doesn't nourish it, she needs SCOTT'S EMULSION. It supplies the elements of fat required for the baby. If baby is not nourished by its artificial food, then it requires

Scott's Emulsion

Half a teaspoonful three or four times a day in its bottle will have the desired effect. It seems to have a magical effect upon babies and children. A fifty-cent bottle will prove the truth of our statements.

Should be taken in summer as well as winter.

SCOTT & BOWNE, Chemists, New York.

ANNOUNCEMENTS FOR SHERIFF.

I respectfully announce myself for Sheriff of Lumpkin county subject to the democratic primary to be held August 15th next. J. M. DAVIS.

FOR ORDINARY.

I respectfully announce myself a candidate for Ordinary, subject to the Democratic primary to be held Aug. 15th, next. JOHN HUFF.

Good Turnouts at Reasonable Rates at All
Hours, Prompt and Quick Service,

Mr. Praters new store house is about completed and he will soon be ready for business.

Remember that we have a good supply of various kinds of stationery and are ready to do your job work at short notice and at reasonable figures.

Those of our citizens who attended the all day singing at Shoal Creek church in White county last Sunday enjoyed the trip very much.

One of the old stage horses on the Gainesville route died soon after it reached Dahlonega last Saturday. We guess the other wishes that it had died too.

The rooms at the Hall House are being nicely papered and fitted up by the Consolidated Co. so as to have them ready for the large number of visitors that are expected here this summer.

The wire for Col. Farrows telephone line from Dahlonega to Porter Springs was received here last Saturday and it won't be long until we can talk to the people of the Queen of the Mountains.

Mr. Kerr has a large number of mechanics working on the big hotel pushing the work forward as rapidly as possible. It is on a high point and is a very desirable and delightful place—no prettier location in Dahlonega.

It was nearly cold enough for frost last Monday morning and our northern visitors who have been having hot weather—thermometer registering at 80—are enjoying our cool atmosphere and healthy climate very much.

A couple of geese made their appearance on the public square last Sunday and remained some time but nearly every body were gone out into the country attending preaching and no serious damage was done by them to man, beast or property.

Those in charge of the printing for the college this commencement are acting very nicely—having the printing done at home. So are the city council. We didn't make a bid for either job, although the opportunity was offered, but it is being done here and will keep the money at home.

J. L. Burns has fitted up a nice fruit stand on the first floor of the court house for one of his sons to look after. This will be an advantage to the building by it being kept clean and nice, besides something being put into the county treasury in the way of rents.

At the last term of Lumpkin Superior Court a bill was returned against Harris Postell of this county for breaking open a shanty down at the Hand mine during the winter and taking therefrom a coat belonging to Herchel Harris containing money. Since court Harris has been hiding from the officers. Last Saturday night sheriff Davis located him at Berry Thomas, near Porter Springs and entered the house but Harris jumped from the bed and lit out through the mountains faster than a deer could run looking like a ghost, and was soon out of sight.

Services were held at Yahoola church last Sunday by Rev. Thos. K. Postell and another minister whose name we did not learn. Their annual foot washing took place which never fails to attract a big crowd of people for many miles around. Some went in the interest of religion, some to see and be seen while others went there to drink liquor and have a good time. None were deceived in this respect on this occasion for a blockade was promptly on hand with enough corn juice to make a number of them very mellow. We heard of one person who got so full that while returning home he ran his horse up and down the road near the long tube several times to the amusement of some spectators, occasionally screaming like a panther.

Remember that you can get the Twice-a-week Atlanta Journal and the Nugget both a year for \$1.50.

Dr. J. W. Smith, of Pontiac, Mich., is with us again this week looking after his mining interests here.

Don't forget to get one of those nice hats at Mrs. Stricklands to wear commencement. Other nice millinery will be found on hand.

A farmer came to town the other day and got a whole lot of shellots. Every farmer should raise all such things as shellots.

The meeting at Yellow Creek last Sunday was attended by a number of citizens from Dahlonega who reported a large crowd on hand.

Clifford Liddell, of Flowery Branch, Ga., is here training the members of the college band so as to get them ready to furnish music for commencement.

In a few more days the Consolidated Co. will have everything ready to light up Dahlonega and their mines with electricity. Then the lightning bug street lamps can be abandoned.

Things look like business over on Capt. Hall's lot opposite the Nugget office. Most all kinds of work going on—building houses, rock walls and tilling the soil at the same time.

The sheriff of Banks county came over last Monday after Geo. Teal who was arrested here last week by sheriff Davis on a warrant sent him from that county. Teal had cursed some women. He made bond.

Three brothers, Aaron, Andrew and Nez Stephens, all colored, were up before Mayor Price Tuesday charged with quarreling last Sunday. Andrew and Nez were acquitted and Aaron was required to dance to the tune of \$10.

We were informed by parties this week from White that Mr. and Mrs. Kim Wofford of that county have a little girl only nine years old that weighs 140 pounds. She has a sister who weighed 140 at eleven years old, and is now one of the prettiest young ladies in White county.

Cards have been received announcing the marriage of Mr. J. P. Cheney to Miss Maud G. Stone which will take place at Marietta on June 5th. Mr. Cheney used to attend the Dahlonega college and has numerous friends here who would like to be present could they possibly do so.

Our readers will remember the report some time ago that Jack Caldwell was killed several weeks ago at Ducktown, Tenn., while at work in the mines, but it was all a false alarm. Jack was wanting to visit his relatives in this county but feared the sheriff who has a warrant against him and had his friends to circulate this report so he could make the trip safely. After spending some days at home he put on a dress and had one of his friends to escort him to the top of the Blue Ridge to bring the garment back. It is said that Jack made a very good looking woman though he was rather slim breasted and was a little out of style from the fact that he never thought of adding on a bustle.

There is a brute in the shape of a man living in Frogtown district, Lumpkin county, who is, living with his second wife, a poor sickly, half starved creature who the brutal husband takes a delight in beating and whipping her with anything that he happens to get his hands on, while his oldest son by his first wife, takes equal delight in holding the poor woman while his father beats her, and then to cap the climax the miserable skunk of a son, only the other day after holding his stepmother for his father to whip, threw a bucket of water wetting the poor woman from head to foot. It is hard to tell what ought to be done with these two images of men for such conduct. Even hell is to good a place for them.

All the ordinances passed by the city fathers not enforced should be repealed.

F. L. Arrendale, who went from this place to Kentucky some few years ago is now located at Rock Creek, Texas.

It is hinted that Mr. Dayson of White county will soon locate in Dahlonega and open out a photograph gallery.

The street running between Rices and the Signal office is being broadened so as to make room for the electric car.

Peter Pock, who was in town Tuesday, said that it did frost over on Shoal Creek Sunday night but injured nothing.

W. C. and Ben Duckett are putting up a saw mill near Sealot Shoals to furnish the Crown Mountain Co. with lumber.

Doublefooted plow stocks and saddles will be found at J. F. Moores. If you get too hot plowing or riding he has a nice line of straw hats so as to keep you cool, very cheap.

A petition signed by more than two hundred miners already down at the Hand mine will be presented soon asking that the whites and blacks be separated. Even some of the negroes signed it.

The entertainment given by the Dahlonega Graded School children last Monday night at the college was well attended and the exercises were enjoyed by all in attendance. We understand that the sale of tickets amounted to \$31.

It is very gratifying to us to be able to say to you that improves ment is still the order of the day in Dahlonega. Two more nice residences will soon be commenced on lots just below Prof. Stewarts on Park street, being those of T. F. Jackson and Ben Moore.

Mr. Benedict, the printer who came up last week with a view of going into the printing business here left out latter part of the week down towards Auraria and has not been seen since. He quite likely decided that there were already printers enough in Dahlonega and devils too and will not return.

Lon Bruce comes to the front as being the first one that has had a mess of new Irish potatoes this season which we have heard of here, being on last Sunday. He remained at home and enjoyed himself in this way. Others who went off to church that day and misbehaved will no doubt wish they had stayed at home and eat potatoes before the trouble ends.

Your attention is directed to the card of Dr. M. N. Stow, to be found in another column, who has just received a big line of drugs and opened an office in the old Dr. Howard store house. Dr. Stow used to live in Dahlonega and you all know him. He is a splendid physician and now asks a share of the professional business of both town and county. So give him a call whenever needing a physician and you will receive prompt attention.

We understand that the following enumerators have been appointed to take the census of Lumpkin county, work to begin first day of June: John Stargel takes Yahoola, Hightower and Jones Creek. W. S. Huff takes Wahoo, Shoal Creek and Frog Town. Harry Gurley takes Dahlonega and Cane Creek. A. W. Cain takes Chestate Crumby and Porter Springs. R. M. Bryson takes Davis, Mill Creek and Nimblewill. Jos. Bell, Jr., takes Auraria and Martin's Ford.

Long John Anderson came to town last Monday and swore out two warrants for West Walker before Esquire Allen, one charges him with disturbing divine services and the other is to the effect that he is afraid of him and wants West to make a bond and keep peaceable and not disorderly. The trouble originated up at Yahoola last Sunday. West heard about the warrants and came down Tuesday and saw the sheriff, telling him that he was ready for a trial at any time the witnesses were summoned.

Mrs. Jonas Senbolt died at her home in Chestate district one day last week, aged about 80.

Miller & Howell, of Auraria, are repairing their hotel and getting it in good shape for visitors.

It won't be a great while now until Profs. Boyd and Anstead houses are ready for occupancy.

The painters are now at work on the Presbyterian church causing it to have a very attractive appearance.

The first strawberries of the season made their appearance in Dahlonega last week and sold like hot cakes.

We are informed that the offices of the Consolidated Co. will be moved into the Hall house by the first of June.

Mr. Thomas Ray was wedded to Miss Ida Edge last Sunday by the Rev. A. Stargel. May success and prosperity attend them on every hand.

Mrs. John Cavender, who after living a few months in Dahlonega last year and moved back to her old home in Union, died in that county last week.

The commissions for members of the board of education appointed at the last term of the court have been received and put into the proper hands and the board is now ready for business in full force again.

Berry Crain came to town and was so full of corn juice that Marshal Anderson gave him attention and put him up. This is the first time that Mill Creek church has been represented in this manner here we believe.

From a gentleman who returned from Cleveland last week we learned that the preacher who kissed the girl up there some time ago is back with his lips as sweet as sugar and his cheeks as red and rosy as a lad of sixteen summers.

The commissions of Notary Publics, who were appointed at the last term of Lumpkin Superior court, were received one day last week, and Judge Tate requests us to ask those they are for to come in and get them at once.

J. R. Castleberry, of White county, after spending some time in the west returned home a few weeks ago. He was in Dahlonega last Sunday and stated that the west was a good country but added that there is no place like home.

The iron for the new bridge across Hightower river near Auraria is being received and in a few days it will be put in position and ready for the traveling public. It weighs 23,000 pounds and Judge Tate received the contract for delivering it.

J. W. Braid, S. A. Champion and W. C. Collier, all of Nashville, Tenn., made their first trip to Dahlonega last week to look at the gold mines. They were highly pleased with what they saw, so much so that two of them secured stock in Crown Mountain.

It is said that Jake Postell and Charlie Roberts like to have locked horns up at Yahoola church last Sunday. It is claimed that Jacob got so mad that he drew his shooting iron but it was settled without any troops having to be called out or any blood being shed.

Gainesville was well represented in Dahlonega last Friday, all of whom stopped at the Dahlonega Hotel, being Messrs. H. Palmour, W. H. Sumner, E. M. White, J. H. White, G. R. Walker, Owen Mesdemed, L. P. Canning, H. H. Brown, R. R. Robertson, E. F. Little, C. F. W. Gunther, W. B. Smith, C. H. Bell, S. C. Dunlap and S. A. Chapman.

We learn that the negro now confined in jail for striking Drew Anderson with a shovel the other afternoon is very uneasy and wants to be guarded. From what we learn he has a right to be uneasy. A man told us last Sunday that a mob had already been organized to lynch him should the young man save the sheriff, telling him that he was ready for a trial at any time the witnesses were summoned.

Some lightning rod men struck Dahlonega this week.

J. H. McKee is constantly receiving new goods who will make it to your interest to trade with him.

If you wish your announcement to appear in the Nugget promptly don't forget to send the fee with it.

Visitors are coming and going from Dahlonega now every day, keeping the hotel men wearing pleasant smiles.

The late risers will likely be up earlier than common next Monday morning in order to see the beginning of the eclipse.

J. S. Newkirk, of the firm of Newkirk & Co., has decided to return to Brunswick. Mr. Martin will remain in Dahlonega.

The cider man was in town the other day but failed to sell any. His house had got to making it so "pure" that it made the boys drunk.

Several of our citizens not having a quarter of an acre lot to put their hogs in, as specified in the hog ordinance, are selling their pigs and throwing their slops away.

We own no gold mine and depend entirely upon the Nugget for a living, therefore we can't afford to do a job of work and then put it in the paper just to fill up for nothing.

The college band has improved rapidly and makes very good music already. A few more months practice by the boys will enable them to play equal to most any of the bands in the state.

Dahlonega has two marshals and a boss to look after the streets and they ought to be kept in good condition, that is if it doesn't take all the money collected to pay the salaries of those appointed to see to them.

We are glad to state that a new postoffice has been established at A. L. Wimpy's in Cane Creek District called Cane Creek, with Miss Belle Wimpy as postmistress. This will be a great convenience to the citizens in that vicinity.

It seems that the geese have given on Capt. Hall more trouble since the passage of the goose ordinance than before. Frequently of mornings during the past week he has gotten up and found from two to five in his garden helping themselves to his tender plants.

The new Presbyterian church at this place will be dedicated next Sunday. The pastor Rev. Mr. Harroll, will conduct the services, assisted by Rev. Mr. Wynne, of Gainesville. Services will also be held at the church by those divines to-night. Everybody invited.

The ice cream festival at the Graded School house last Tuesday night proved to be very interesting financially speaking, as the sale of tickets amounted to \$44. This and the entertainment the night before realized the school \$75, which will be used to secure a library for the same.

More care should be taken with the sack containing the papers by the mail carrier between here and Gainesville and not put on the outside to make room for passengers, taking the weather as it comes. Nearly all the papers reaching Dahlonega last Wednesday were wet.

Some of our citizens put kerosene oil on their potato tops this week as a test to see whether it would kill the bugs. It did so—tops and all, and those making the experiment will have to do without potatoes unless they buy from those who killed the bugs without the use of kerosene oil.

Mr. Peacock, who has been in the employ of the Consolidated Co. for several months, takes his departure on the 2nd of June for Montana where he is interested in some mining property. Mr. Peacock has made a host of friends since being in Dahlonega, all of whom regret to see him leave.

Howard Walker Arrested for Breaking Open a Letter.

Howard Walker, living near Dahlonega, has got mixed up with Uncle Sam by opening a letter which didn't belong to him and taking from it a \$1.00 check and putting it to his own use, the occurrence taking place near two weeks ago. Alfred Walker, to whom the letter belonged had attended the U. S. Court some time previous as a witness and his check for such had been sent him by mail, but Alfred failed to get it. All the witnesses in the same case had received their checks and Alfred failing to get his caused him to make some enquiry of Com. Baker and an investigation proved that Howard Walker had called for the letter, had some one to write Alfred Walker's name on the check and disposed of it to merchant McGee and the records show that the bank has paid it off some time ago. A few days ago a postoffice inspector swore out a warrant against Howard Walker before Judge Gaston in Gainesville which was sent up to Marshal Grizzle to serve, who did so Tuesday afternoon and carried the defendant before Com. Baker, and when Walker was asked if he could make bond until the witnesses could be summoned Howard lit out down the steps, went up to the Consolidated hotel and was soon out of sight across the hill, in the woods and has not been seen by the officers since. Alfred and Howard are related but the boys' errand makes no allowance for this. We understand that the penalty in such a case is not less than three nor more than five years in the penitentiary.

Several of our citizens not having a quarter of an acre lot to put their hogs in, as specified in the hog ordinance, are selling their pigs and throwing their slops away.

We own no gold mine and depend entirely upon the Nugget for a living, therefore we can't afford to do a job of work and then put it in the paper just to fill up for nothing.

The college band has improved rapidly and makes very good music already. A few more months practice by the boys will enable them to play equal to most any of the bands in the state.

Dahlonega has two marshals and a boss to look after the streets and they ought to be kept in good condition, that is if it doesn't take all the money collected to pay the salaries of those appointed to see to them.

We are glad to state that a new postoffice has been established at A. L. Wimpy's in Cane Creek District called Cane Creek, with Miss Belle Wimpy as postmistress. This will be a great convenience to the citizens in that vicinity.

B. R. MEADERS & SON.

Divorce was made in heaven. It is a funny thing how a woman will always fix her glasses on better just before she begins a talk over a telephone.

A woman can never resist a story where the girl wakes up in the night and finds a handsome man escaping from justice, in her room.

When a woman calls on another woman and finds a man there and looks mad, she had either a secret to tell or else she likes the poor man.

No woman down in her heart believes that she isn't just as good looking as a photograph that she knows is a lot better looking than she is.

A man is always afraid to try to get a girl to love him by acting nice to her mother for fear she will fall in love with him herself and act mean and jealous to the poor girl.

Monstrosities.

The human race is heir to many monstrosities, and the stage of life may be styled the Vandeville of the Vandeville. But there is a class of people found in certain localities whose mental phenomena cannot be explained on any rational basis. Neither can this course be changed by any known process of reasoning. These creatures are generally found in the shape of young men and young ladies who go to church or to public gatherings to attract attention to themselves. They sit on the back seats and eat peanuts sometimes they talk; sometimes a smile illuminates their intelligent countenance as they elucidate some of their great mental processes to those sitting near; and sometimes they just sleep. A few of these microbes can be seen in Acworth at almost any public gathering. Call and see them. They take no offense at being gazed at.—Post.

A boy was sent after a pail of water. It was necessary to prime the pump each time and give a dozen or more strokes at the handle to start the water. He poured in the priming, and pumped out as much as he poured in. Then he stopped to rest, and the prime run down again. After two or three hours of alternate pumping and resting, he concluded it did not pay to pump, and therefore quite in disgust. The story reminds us of a merchant who advertised a few weeks and stopped awhile and allowed the people to forget him and his business before he advertised again, and concluded it did not pay to advertise. The fact is, the pump has lost its priming.—Ex.

I consider it not only a pleasure but a duty I owe my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. Laxon, Dorr, W. Va. This remedy is sold by F. W. Hall Mide.

The protection of the birds of our forests has really become a vital question in this country. The ornithologist and the farmer unite in their plea. The ornithologist fears the extinction of the bird race if the wholesale slaughter now prevalent does not cease. The farmer declares that he almost fears for the life of man himself since the destruction of the birds means the destruction of the bright products by the all pervading worm. It rests largely with women to settle this matter. If they decline to wear dead birds on their hats, and it is in wretched taste, the milliner will no longer buy the birds, and the slayers of the bright products and songsters will seek more profitable employment.—Ex.

An Epidemic of Whooping Cough. Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for cough and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—JOHN E. CLIFFORD, Proprietor Norwood House, Norwood, N. Y. This remedy is for sale by F. W. Hall Mide.

CATARRH CAN BE CURED BY Johnston's Sarsaparilla

QUART BOTTLES.

"DANGER IN THE EARTH AND AIR; DANGER EVERYWHERE."

A Wise and Venerable Doctor Talks about Advanced Science. In a leading hotel, in a great city, a famous and aged physician was conversing. Listening to his wise and sententious discourse, were a group of well dressed men, evidently lawyers, business men and commercial travelers. His first remark was that medical science is certain yet to show that all diseases without exception are caused by invisible germs which are living organisms. Here is the germ of that terrible disease diphtheria. Here is the bacillus of typhoid fever; and here is the still more dreadful bacillus of tubercle which causes that most destructive of all diseases, consumption. This of that very common and supposed incurable disease, catarrh.

"I wish," said the traveling man, "that you would tell us about catarrh. I have had it for years, and I am thoroughly discouraged." The Doctor answered, "Catarrh, like diphtheria, consumption, typhoid fever and a host of other diseases, is the result of a microbe invading the blood and attacking specially the mucous membrane. This foul and most disgusting disease is especially prevalent in the United States and it is rare to meet one who is not, or has not been troubled more or less with it. How often is he or she obliged to remain at home from pleasant entertainments, deprive themselves of many intellectual treats, from fear of the disagreeable odor arising from catarrhal affections. In its worst phase, the patient becomes loathsome both to himself and his friends.

"I believe," continued this great physician, "that the true way to heal catarrh is to medicate the blood. This can be done only by powerful alteratives which act as blood purifiers."

Dr. J. A. Marshall, of Manistee, Manistee Co., Mich., writes: Dear Sirs:—For ten years I was a sufferer from general debility and chronic catarrh. My face was pale as death. I was weak and short of breath. I could hardly walk. I was so dizzy and had a tingling in my head all the time. My hands and feet were always cold. My appetite was very poor. On getting up in the morning, my head swam so I was often obliged to lie down again. I had a constant feeling of dizziness. My muscular power was almost entirely gone, and I couldn't go half a dozen paces in my side. It seemed as though the blood had left my veins. The doctors said my blood had all turned to water. I had given up all hope of ever getting well. I tried several different physicians in the state, but to get any relief. My husband got me a bottle of Johnston's Sarsaparilla. I took it, and then I bought another. When these had been used, I was somewhat improved in health. I continued its use, and felt I was growing stronger; my sleep was refreshing, and it seemed as if I could feel new blood moving through my veins. I kept on taking it, and now consider myself a well and rugged woman. I work hard and am as healthy as a horse. I am positive that the Sarsaparilla saved my life. The sick headaches I have had since childhood, have disappeared, and my catarrh has almost entirely left me. I cannot be too thankful for what Johnston's Sarsaparilla has done for me. I recommend all women who have sick headaches to use your Sarsaparilla.

EDUCATION A FEATURE

It Will Be Given Prominence at the Inter-State Fair.

AN INTERESTING EXHIBIT

Arrangements Have Been Perfect For Contests In Oratory and Composition Between Boys and Girls. Prizes Offered by the Educational Department.

The Educational Department of the Southern Inter-State Fair, to be held at Atlanta this fall, will be one of the most interesting features of the fair.

It has always been difficult to arrange a basis of competition for school exhibits that would be practicable, and at the same time prove interesting to visitors and the public at large. But this difficulty was happily adjusted by the arrangement under which the Educational Department was operated at the State Fair held in Atlanta last year. This plan, with a few modifications suggested by experience, will be adopted by the Fair Management this year, and it goes without saying that the success of the year will cause a doubled interest in the work now under way for the fair this fall.

Under the plan adopted colleges, schools and school systems, both county and city, may make practical and interesting exhibits and compete on an equitable basis. The plan is an interesting one and of a new road commencing at the foot of the Yahoola creek in the Lavada Head farm and running by the house of Andrew Head to the old road near the copper ore road, where as commissioners appointed for the purpose have been received and marked out and accompanied road and reported to me that said road will be of much public utility. Now this is to cite and admonish all persons that on and after the 1st Monday in June 1900, said new road will be granted if no good cause is shown to the contrary. Given under my hand and official signature this 8th day of May 1900.

W. H. C. TATE, Ordly.

SHERIFF'S SALE. Georgia—Lumpkin County. Will be sold on the 12th day of June 1900 at public outcry, at the court house door in the city of Dahlonega, within the legal hours, I, sale, to the highest bidder for cash, the following property to-wit: Lots of land numbers 723, 984, 1026, 1027, 1031, 1033 and 1039 all in the 11th district and 1st section of Lumpkin County, Georgia, containing in each lot 40 acres more or less. Levied on as the property of McDuffie R. Moore by virtue of and to satisfy a f. a. issued from the Justices Court of the 8th district, G. M., in favor of the First National Bank of Gainesville, Ga., vs. McDuffie R. Moore, C. M. Moore and D. H. Ingersoll as principals and J. C. Brittain as security. Said f. a. being now proceeding for the use and benefit of said J. C. Brittain surety as aforesaid. Levy made and returned to me by J. C. Williams, L. C.

Also at the same time and place and upon the same terms town lots of land and embraced under one and one hundred, in the town, now city of Dahlonega, Lumpkin County, Georgia, according to the plan of said town, originally laid out of lot of land No. one hundred and fifty in the 12th district and 1st section, said county; together with the tenements and improvements thereon, whereon Mattie E. Thomas and H. H. Thomas and said Mattie E. Thomas' heirs, each lot containing one-fourth of an acre more or less. Said property levied on as the property of Mattie E. Thomas to satisfy a judgment issued from the Superior court of said county in favor of Thomas C. Hughes and J. W. Boyd executors of last will of G. Hughes deceased against Mattie E. Thomas. This May 8, 1900.

J. M. DAVIS, Sheriff.

The Dalton Argus says: "A merchant remarked to the editor the other day: 'If I was running a newspaper in Dalton now, I'd turn it loose for Blank, and Blank, and Blank, and I'd whoop things up for them from now till May 15.' 'Well,' replied the editor, 'suppose you turn your store over to them for the same length of time. Let everybody come and get what they want, and make no charge; just tell them you are for Blank, and Blank, and the other fellows are skunks. How long do you think your stock of your business would last?'"

The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the tradition is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by The F. W. Hall Mide Co.

ROAD NOTICE.

State of Georgia, Lumpkin County. Whereas certain petitioners have made application to this court praying for an order granting the establishment of a new road commencing at the foot of the Yahoola creek in the Lavada Head farm and running by the house of Andrew Head to the old road near the copper ore road, where as commissioners appointed for the purpose have been received and marked out and accompanied road and reported to me that said road will be of much public utility. Now this is to cite and admonish all persons that on and after the 1st Monday in June 1900, said new road will be granted if no good cause is shown to the contrary. Given under my hand and official signature this 8th day of May 1900.

THE Crown Mountain Gold Mining & Milling Co.

A. J. WARTER, President,
J. H. MOORE, Vice-President,
J. F. MOORE, Sec. & Treas.

Capitalized at \$2,000,000. The Par Value of Shares \$100 Each.

Main Office: Dahlonega, Ga.

The Crown Mountain properties are situated in the very heart of the Georgia gold belt and in the radiating center of all the leading gold veins of the Dahlonega district. They embrace what is believed to be the mother lode of the Appalachian Range. The extensive and rich ore bodies in sight upon these properties assure long continued mining operations and the indisputable guarantee of the permanent and increasing value of the stock of "The Crown Mountain Mining Co."

The projectors of this company were the first to revive the mining interests in this district in 1896. After three years of careful and exhaustive examination of all the mines of the district of reputation as gold producers, and they had the choice of all, they selected the Crown Mountain combination as the ideal gold mine of the district, which would yield or produce the most gold with the least expense. This opinion is shown by all the mining engineers, mining experts, miners and citizens of any standing in the district who are familiar with the properties. As an evidence of this we here state that more of the citizens of the town of Dahlonega and vicinity have taken stock in this company than have in all the other companies combined that have ever been organized in this district.

The company is to be managed by practical business men—who have given much of their time to mining and mining operations, and always with unvarying success. The present directory is for the most part composed of men who have had much experience in the management of mines and mining enterprises, and under its efficient and economical management, and by reason of a visible gold supply that is practically inexhaustible, an investment in the stock of this company is undoubtedly safe.

The capitalization of this company is not commensurate with the visible productiveness of the property and its meagre compared with the capitalization of other justly celebrated mines in the district, but the management believe it will be able to make the stock worth above par.

We invite all prospective investors to make a personal inspection of the mine, and to invite them to examine all the other mines in the district—compare the quality and quantity of the ore and the facilities for economically treating the same. We have no fears of what the mine will do.

Until further notice of advance in prices, the stock of this company will be sold at the minimum rate of \$25.00 per share. For further information apply to J. F. or J. H. Moore, Dahlonega, Ga., or Donovin & McCabe, 10 & 12 West Spring Street, Columbus, Ohio, or Gen. A. J. Warner, Marietta, Ohio.

Georgia, Lumpkin County. To whom A. G. Adams having made application to be in due form to be appointed permanent administrator of the estate of J. M. Adams, late of said county, notice is hereby given that said application will be heard at the regular term of the Court of Ordinary for said county, to be held on the first Monday in June, 1900, at 10 o'clock, to allow cause why such application should not be granted. Witness my hand and official signature, this 7th day of May, 1900.

W. H. C. TATE, Ordly.

Georgia, Lumpkin County. Gabriella Satterfield, guardian of Daniel Davis, having applied to me to be discharged from such guardianship, I do all other concerned should come before me at the court on the first Monday in June, 1900, at 10 o'clock, to allow cause why such application should not be granted. Witness my hand and official signature, this 7th day of May, 1900.

W. H. C. TATE, Ordly.

GEORGIA Lumpkin County. Notice is hereby given to all whose support has been set apart to the widow of Francis H. Adams deceased by appraisers appointed for that purpose, to file all objections to be shown to the contrary, said years support will be allowed, and become the judgment of the court of Ordinary of said county on the first Monday in March 1900. Witness my hand and official signature, this 7th day of May, 1900.

W. H. C. TATE, Ordly.
